Hot compress mode : Hot Pressure + Music
Soothing mode : Low Atmospheric Pressure+ Music
Power mode: Barometric Pressure + Music

Note: In any mode, double-click the button to enter silent mode.

Hazardous Substances in Products

Part Name	Hazardous substances						
	Lead Pb	Heavy Hg	Cadmium Cd	Hexavalent Chromium Cr(VI)	Polybrominated Biphenyl PBB	Polybrominated Diphenyl Ether PBDE	
Plastic Parts	○	○	○	○	○	○	
Circuit Board	×	○	○	○	○	○	
Pressure Control Component	○	○	○	○	○	○	
Battery Pack	×	○	○	○	○	○	
Straps	○	○	○	○	○	○	
Attachments	○	○	○	○	○	○	

○: the content of the hazardous substance in all homogeneous materials of the component is below the required limit according to GB/T 26572.
×: the content of the hazardous substance in at least one homogeneous material of the component exceeds the required limit according to GB/T 26572.

Cleaning and Storage

- Turn off the power before cleaning. Clean the surface of the product with a dry soft cloth.
- Cover the product with a dust shield (provided by yourself) when not in use for a long time.

⚠ Attention

Cut the power supply before cleaning. Do not use corrosive cleaners like benzene or diluent to clean the product, which may cause the product to fade and the structure to be corroded and cracked.
Do not expose the product to sunlight or high temperatures, which may cause the product to fade.

Common Problems and Solutions

Serial Number	Problems	Possible Causes	Suggested Solutions
1	Noises like "whew" and "da".	Normal working noises from the pump inflating/deflating, the motor spinning, the clothing cover rubbing, etc.	Unnecessary.
2	Automatic shutdown after startup.	The lithium battery is low.	Charge the battery.
3	The power button doesn't work.	The battery is not charged.	The charger may be broken.
4	Air pressure is too low.	The lithium battery is low.	Charge the battery.

- Turn off the product and contact the dealer or the company if problems still exist after conducting the suggested solutions.
- The company is not responsible for any loss or damage to products and people due to dismantling and repairing the product without authorization.

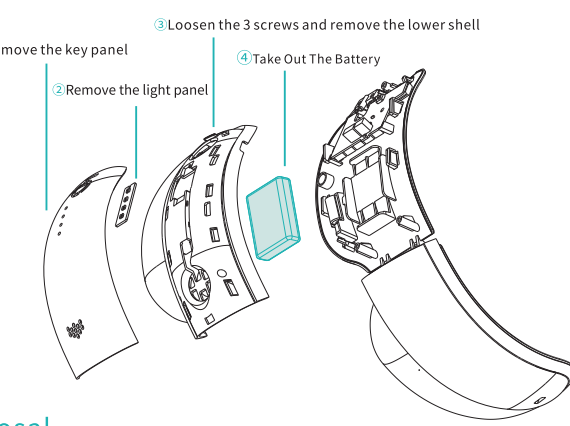

After-sales Service and Warranty

The product enjoys free maintenance for one year from the day it was purchased when the user follows this instruction manual.
Labor and material fees are covered by the free maintenance, but the delivery and door-to-door service fees are excluded.
Improper disposal of the product may lead to environmental pollution.

Charging Services

- Damage caused by improper use and storage from the users.
- Damage caused by non-appointed service outlets of the company.
- Product of which the warranty expires.

Battery Disassembly Diagram

Disposal

- Remove the battery before discarding the product.
- Cut off the power supply before removing the battery.
- Do not change the battery without authorization.
- Use appropriate tools to remove the upper cover of the product, remove the battery and discard it in corresponding recycling facilities.

Transportation and Storage

Ambient temperature: -20℃ - 40℃
Relative humidity: less than 80% with good ventilation. Avoid corrosive gas, and is suitable for transportation by air, rail, road and ship. The product should avoid showers by rain and snow, and shouldn't be put upside down and crashed. FCC Warning Statement:

This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications.

However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

Caution: Any changes or modifications to this device not explicitly approved by manufacturer could void your authority to operate this equipment.

This device complies with part 15 of the FCC Rules. Operation is subject to the following two conditions: (1) This device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

The device has been evaluated to meet general RF exposure requirement.
