APP Main Interface

- 1.Firstly, you need to turn on the Bluetooth on your mobile phone, then log in the APP -"Magic Lantern", the APP will automatically connect to the LED lights. (Once you start the APP before switching on the bluetooth of your mobile phone, the interface of APP will pop out with a message, asking you to turn on the bluetooth, please just click "ALLOW").
- 2.Please make sure it connect successfully and the LED strip lights can be control on the APP. Or you can check out the colors of LED strips corresponding to the colors in APP interface or others. If it do not work, please follow the instruction to set the parameters or you can turn off the bluetooth first and try it again.

APP Setting Interface

FCC WARNING

This device complies with part 15 of the FCC Rules. Operation is subject to the following two conditions: (1) this device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

Any changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

NOTE: This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to Part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications.

However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception,

which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

To maintain compliance with FCC's RF Exposure guidelines, This equipment should be installed and operated with minimum 20cm distance between the radiator and your body: Use only the supplied antenna.
