Carplay Box User Manual

Carplay Box User Manual

If you have any question of our Car Video Box, please contact us.

DC@yoomail.com

We can try our best to provide solutions based on your issues.

1. Product Description

The Car Video Box upgrades your in-car entertainment and connectivity by converting wired CarPlay/Android Auto to wireless, eliminating the hassle of messy cables. Its built-in Android system with pre-installed video streaming apps, such as YouTube, Netflix, TikTok, Prime Video, and Disney+, effortlessly brings navigation, music, and video streaming to your car experience.

2. Plug & Play

Plug the Car Video Box into your car's infotainment port using the power/date cable we provided. Wait for about 10 to 15 seconds. Once the following screen appears on your car's infotainment screen, the connection is successful.

Please Note:

- Your car's entertainment system must support wired CarPlay/Android Auto, and the screen must be touch-enabled.
- When the green light flashes, it indicates CarPlay mode. When the blue light flashes, it indicates Android Auto mode.
- Select the mode corresponding to your car's infotainment system, and switch modes by pressing the reset button for 3 seconds.

Green: CarPlay mode

Blue: Android Auto mode

3. How to Use Netflix, YouTube

After connection successfully, to use Netflix or YouTube video apps, please go to the Settings menu and connect your phone's hotspot or an available Wi-Fi network.

- Click Settings > Normal > Wi-Fi;
- Connect to your phone's hotspot or an available Wi-Fi network. Once the connection is successful, you can start watching online videos.

4. How to Connect Apple Carplay/Android Auto

- When the green light flashes, it indicates CarPlay mode. When the blue light flashes, it indicates Android Auto mode.
- Search for Bluetooth devices on your smartphone, and when "Aibox-****" appears, tap to pair and connect.

- Once the pairing is successful, you can enjoy your drive.

Apple CarPlay Interface

Android Auto Interface

5. Offline Video/Music Playback From USB Drive

You can play your offline video or music files from USB drive via the USB port.

- ① Insert the USB drive into the USB port of the CarPlay Video Box.
- ② Play videos from your USB drive in Video app .
- ③ Play music from your USB drive in Music app .

Note: The offline video or music files must be MP3/MP4 formats.

6. HDMI Output Guide

The Car Video Box has an Android system with pre-installed video streaming Apps, such as YouTube, Netflix, TikTok, Prime Video, and Disney+. You can use the HDMI Output port to connect the Car TV Headrest Monitor to play the built-in video App.

Note:

- ① After successfully connecting, only the video apps will be supported.
- ② To use video Apps, please go to the Settings menu and connect your phone's hotspot or an available Wi-Fi network.
(For connection steps, please refer to the steps in point 3 above.)
- ③ The HDMI cable needs to be purchased separately.

7. OTA Online Update

To upgrade the Car Video Box via OTA, please connect it to your Phone's hotspot or a Wi-Fi network first. Then, download the latest system version on the car's entertainment system. Finally, follow the instructions to upgrade the system step by step.

FCC Requirement

Any changes or modifications not expressly approved by the party responsible for compliance could void the user ' s authority to operate the equipment.

This device complies with Part 15 of the FCC Rules. Operation is subject to the following two conditions:

- (1) this device may not cause harmful interference, and
- (2) this device must accept any interference received, including interference that may cause undesired operation.

Note: This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to Part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses, and can radiate radio frequency energy , and if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures: –

Reorient or relocate the receiving antenna.

- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

This equipment complies with FCC radiation exposure limits set forth for an uncontrolled environment. This equipment should be installed and operated with a minimum distance of 20cm between the radiator & your body. This transmitter must not be co-located or operating in conjunction with any other antenna or transmitter.

1. 製品紹介

CarPlayアダプターは、有線CarPlayをワイヤレスに変換し、運転中にタッチスクリーンや音声コントロールでiPhoneを簡単に操作できます。ナビゲーション、音楽、通話、メッセージなどをスムーズに利用でき、安定した接続で安全な運転と快適なエンターテインメントを提供します。

ヒント：車のディスプレイオーディオは有線CarPlay/Android Auto、タッチ操作対応が必要です。

2. 使用方法:

用データケーブルでCarPlayアダプターと車の車載インターフェースを接続し、車載画面にホーム画面が表示されるのを待ちます。

注意:

- ① 接続時、緑色のランプが点滅するとCarPlayモード、青色のランプが点滅するとAndroid Autoモードです。
- ② 原車の車載システムに対応するモードを選択して、モードの切り替えはリセットボタンを3秒間押すことで行えます。

緑色： CarPlayモード

青色： Android Autoモード

3. Netflix、YouTubeなどのアプリの 使用方法:

動画アプリを使用するには、スマートフォンのホットスポットまたはWi-Fiネットワークに接続する必要があります。

WIFI接続方法は下記です:

- ① settingsをクリックして> 標準> 無線LAN;
- ② スマートフォンのホットスポットまたは利用可能なWi-Fiネットワークに接続すれば接続成功。

4. AndroidAuto/CarPlay接続方法:

- Android Auto/CarPlay機能を選択し、スマートフォンのWi-FiとBluetoothの機能をオンにします。
- スマートフォンでBluetoothを検索し、「Aibox-****」という名前が表示されたら、ペアリングをタップして接続します。

- ペアリングが成功すると、ドライブを楽しむことができます。

CarPlayを接続成功画面

Android Autoを接続成功画面

5. USBメモリからのローカル動画再生

説明: USBフラッシュドライブから音楽とビデオファイルを再生します。

- ① USBメモリをカープレイアダプターのUSBポートに挿入します。
- ② ビデオアプリ  でUSBメモリからビデオを再生します。
- ③ ミュージックアプリ  でUSBメモリから音楽を再生します。

注意: この機能はMP3/MP4形式のファイルのみをサポートしています。

6. HDMI出力

CarPlayアダプターはAndroidシステムを搭載しており、YouTube、Netflix、TikTok、Prime Video、Disney+などのストリーミングアプリがインストールされています。HDMI出力ポートを使って、車載テレビに接続して動画を再生できます。

- ① 接続後、動画アプリのみがサポートされます。
- ② 動画アプリを使うには、settings  から携帯電話のホットスポットやWi-Fiに接続してください。（接続手順は3番目のステップを参照）

ヒント：HDMIデータケーブルは別途購入する必要があります。

7. アップグレード方法:

OTAアップグレードには、ホットスポットかWi-Fiに接続し、車載システムで最新バージョンをダウンロードしてください。
