

Precautions

- 1: Before using the CAMERA-S-V1.0, please read this manual carefully. It contains important safety information as well as operating and maintenance instructions.
- 2: Please observe all safety precautions to prevent damage resulting from the improper use of the CAMERA-S-V1.0.
- 3: We accept no liability for any damage caused by improper use or operational errors.
- 4: Before attaching the LED strip, please wipe down the edges of the TV's back casing to ensure a secure bond and prevent the strip from detaching due to dust accumulation.
- 5: The starting point for attaching the LED strip is the center of the top edge of the TV's back cover.
- 6: Upon first use, please configure the installation direction of the LED strip and the number of LED beads via the accompanying app.
- 7: If you are concerned that the device may become loose, you may use 3M tape to reinforce its mounting.

packing list

Product Description

Product Installation

- 1: First, wipe away any dust and dirt from the back of the TV using a cloth to prevent dust accumulation from causing the LED strip to adhere insecurely.
- 2: Starting from the center of the top edge of the TV's back cover, slowly peel off the red release liner backed with 3M adhesive, and press down firmly. Use clips to secure the four corners.

Product Specifications	
Model	CAMERA-S-V1.0
Support grid method	5*28T
Power	20W Max
Strip Light Length	40-60cm Pch: 15-18T, 60-80cm Pch: 18-24T, 80-100cm Pch: 24-30T
Colors	Full color
Bluetooth Protocol	Bluetooth 4.2 above
Supported OS	Android 5.0 above or iOS 11.0 above
Supported APP	uLamp
Storage Temperature	-20° C ~ +20° C
Working Temperature	-20° C ~ +60° C

- ### Troubleshooting
1. Unable to Connect via Bluetooth
 - Ensure that Bluetooth is enabled on your smartphone.
 - Your smartphone may not be compatible with the uLamp app. Please try using a different smartphone to reconnect.
 - Turn off both the light strip and your smartphone's Bluetooth, then turn them back on and try again.
 - When connecting, ensure that your smartphone is within a range of 1 meter (3.28 feet) of the light strip.
 - Remove any obstacles located between the light strip and your smartphone.
 2. The light strip does not display the full range of selected colors / Some LEDs are not lighting up. Please contact our support team for a quick product replacement.
 3. There may be slight color discrepancies between the background color and the screen color; this is considered normal behavior within the same color spectrum.

FCC Warning:

This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

Caution: Any changes or modifications to this device not explicitly approved by manufacturer could void your authority to operate this equipment.

This device complies with part 15 of the FCC Rules. Operation is subject to the following two conditions:

(1) This device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

This equipment complies with FCC radiation exposure limits set forth for an uncontrolled environment. This equipment should be installed and operated with minimum distance 0cm between the radiator and your body.
