Low Battery The red light breathing flash, and the Bluetooth Headphone icon in the phone's status bar turns red Responsible for your hearing To avoid hearing loss, turn down the volume of the music player before wearing headset. After putting on the Headphone, slowly adjust the volume to a suitable level.
The unit of measurement for noise is (db). Long-term exposure to 85db or higher noise environment may cause hearing loss gradually. Monitor usage; hearing loss is the result of too much noise and time. The louder the sound, the more time to reduce exposure to noise. The softer the voice, the longer you can listen. Please visit the Consumer Electronics Association website (www.ce.org) to learn how to establish a safe listening level and review other important safety guidelines. For important information on how to prevent noise-induced hearing loss (NIHL) and a complete list of what noise can cause hearing loss, please refer to the website of the Foundation for the Study of the Hearing Impairment: www.drf.org. Battery usage note • There is an explosion risk if the battery is not replaced properly. Batteries can only be replaced with batteries of the same type or equivalent. It is not recommended to replace the battery without permission, but it can be returned to the manufacturer for replacement. • The cell [battery pack or battery pack and] shall not be exposed to conditions such as sunlight, fire or similar overheating. FCC STATEMENT Changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment. This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates uses and can radiate radio frequency energy and, if not installed and used in accordance with the Instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures: - Reorient or relocate the receiving antenna. - Increase the separation between the equipment and the receiver. - Connect the equipment to an outlet on a circuit different from that to which the receiver is connected. - Consult the dealer or an experienced radio / TV technician for help. Changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment. This device complies with Part 15 of the FCC Rules. Operation is subject to the following two conditions: (1) This device may not cause harmful interference, and (2) This device must accept any interference received. Including interference that may cause undesired operation. The device has been evaluated to meet general RF exposure requirement. The device can be used in portable exposure condition without restriction. FCC ID: 2BNUX-FH001	IC CAUTION Radio Standards Specification RSS-Gen, issue 5 - English: This device contains licence-exempt transmitter(s)/receiver(s) that comply with Innovation, Science and Economic Development Canada's licence-exempt RSS(s). Operation is subject to the following two conditions: This device may not cause interference. This device must accept any interference, including interference that may cause undesired operation of the device. RF exposure statement: The device has been evaluated to meet general RF exposure requirement. The device can be used in portable exposure condition without restriction. - French: Cet appareil contient des émetteurs / récepteurs exemptés de licence conformes aux RSS (RSS) d'Innovation, Sciences et Développement économique Canada. Le fonctionnement est soumis aux deux conditions suivantes: Cet appareil ne doit pas causer d'interférences. Cet appareil doit accepter toutes les interférences, y compris celles susceptibles de provoquer un fonctionnement indésirable de l'appareil. Déclaration d'exposition RF: L'appareil a été évalué pour répondre aux exigences générales d'exposition aux RF. L'appareil peut être utilisé dans des conditions d'exposition portable sans restriction. IC:33882-FH001
