APP download and installation

Download the "Da Echo" app on your phone and install it. You can directly search for "Da Echo" in the app store to download it.

Major function

Intelligent AI

AI can be awakened through button commands or by using the wake-up word "Hello, Xiao Orange". To use intelligent AI, it is necessary to first ensure that the app is connected and that the app is in a front-end active state.

Precautions

- 1 Do not attempt to disassemble or replace any parts inside the product, except for the operation methods indicated in the manual.
 - 2 Do not place this product near a heat source or directly expose it to a fire source.
 - 3 Do not place this product in an environment with strong electromagnetic force, otherwise it may cause product malfunction.
 - 4 When charging, please use a charging device with an output voltage of DC 5V/1A. It is necessary to choose a charging device from a reputable manufacturer that has obtained CCC safety certification. Do not use fast charging chargers to avoid excessive battery load and battery damage.
 - 5 This device complies with part 15 of the FCC Rules. Operation is subject to the following two conditions: (1) this device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.
- Any changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

NOTE: This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to Part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation.

If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

The device has been evaluated to meet general RF exposure requirement. The device can be used in portable exposure condition without restriction
