FCC Warning Statement:

Changes or modifications to this unit not expressly approved by the party responsible for compliance could void the user's warranty. This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to Part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses, and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off, the user is advised to take the following steps to correct the interference by one or more of the following measures:

Reorient or relocate the receiving antenna.
Increase the separation between the equipment and receiver.
Consult the equipment manufacturer to obtain literature on a circuit different from that to which the receiver is connected.
Consult the dealer or an experienced radio/TV technician for help.

This device complies with Part 15 of the FCC Rules. Operation is subject to the following two conditions: (1) this device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

FCC Radiation Exposure Statement

The antennas used by this transmitter must be installed to provide a separation distance of at least 20 cm from persons and must not be co-located or operating in conjunction with any other antenna or transmitter.

PowerBase 4

5 in 1 Charging Station

93.5MM

93.5MM

Welcome to your PowerBase 4

Let us help you set up your new charger quickly with this guide

What's Included

- PoweBase 4
- USB-C Power Cable

Note: Watch charger adaptor sold separate

Power On

Connect the PowerBase 4 to a power supply using the included USB-C charging cable and a USB-C wall adapter.

Note: We recommend a 60W wall adaptor for the best performance

Wireless Charging

1. Start by using a Qi-enabled device, also ensuring it is MagSafe compatible or that you are using our SnapMag case or SnapMag Ring.
2. Place your device on the wireless charging area and charging will begin immediately. The LED light will pulse to indicate that the device has begun to charge.
3. For wireless charging an Apple Watch or Samsung Watch, plug in the additional watch charging adaptor (sold separately). Then simply attach your compatible smart watch and charging will begin immediately.

Cable Charging

1. Ensure you have a mobile device with a USB-C charging input port.
2. Simply pull out the InfinityCord™ retractable USB-C cable and plug it directly into your compatible device; charging will begin immediately.

Travel Mode

Simply rotate the phone stand clockwise 45 degrees and press the stand down to lay it flat.
