

## Antenna Specification

|                |                                                                                                                 |          |         |
|----------------|-----------------------------------------------------------------------------------------------------------------|----------|---------|
| Model Name     | 2.4G FHSS ANT                                                                                                   |          |         |
| Frequency      | 2400MHz                                                                                                         | 2450MHz  | 2500MHz |
| Gain (dBi)     | -1.02dBi                                                                                                        | -0.45dBi | 0 dBi   |
| MAX. Gain      | 0 dBi                                                                                                           |          |         |
| Impedance      | 50 $\Omega$                                                                                                     |          |         |
| Antenna Length | 26.5mm                                                                                                          |          |         |
| Manufacturer   | Shenzhen Kang cheng xin sheng Technology Co., Ltd                                                               |          |         |
| Address:       | 4F, Yuehua Garden Building, Nanshan Avenue, Xuexue Community, Nanshan Street, Nanshan District, Shenzhen, China |          |         |
