

Charging Case Charging

Use a Type-C charging cable to connect the charging case to a charger. The white LED running light on the charging case indicates that charging is in progress. The light will turn off when the charging case is fully charged.

Charging Case Charging

Use a Type-C charging cable to connect the charging case to a charger. The white LED running light on the charging case indicates that charging is in progress. The light will turn off when the charging case is fully charged.

Function	Operation
Play/Pause	Tap any headphone touch point once
Volume +/-	Tap left/right headphone twice
Previous/Next Track	Long press the left/right headphone for 1.5 seconds
Answer Call	Tap any headphone touch point once
End Call	Tap any headphone touch point once
Reject Call	Long press any headphone touch point for 1.5 seconds
Activate Siri	Tap any headphone touch point 3 times

Function	LED Indicator
Power On	Blue LED Flashing
Power Off	LED off
Pairing	Blue LEDs Flashing
Pairing Succeeded	One earphone's light is flashing alternately in red and blue
Bluetooth Connected	LED off
Low Battery	Red LED indicator
Headphone Charging	White LED indicator on the charging case
Charging Case Charging	LED lighting light, light turns off when fully charged

Open the charging case and take out both headphones. The headphones will power on automatically and enter pairing mode at 5 seconds. You will hear the L/R voice prompt "beep" simultaneously indicating successful connection. Open your Bluetooth device and search for "M8" to connect. You will hear the voice prompt "connected". Let's start the music! Now, let's get going!

Ensure the Charging Case Has Sufficient Power

If the charging points of the headphones are covered by something else, the charging case will be unable to charge the headphones. Please try removing the obstruction or wiping it with alcohol. Clean and try charging again.

FCC Warning:

This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

Caution: Any changes or modifications to this device not explicitly approved by manufacturer could void your authority to operate this equipment.

This device complies with part 15 of the FCC Rules. Operation is subject to the following two conditions:

(1) This device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

This equipment complies with FCC radiation exposure limits set forth for an uncontrolled environment. This equipment should be installed and operated with minimum distance 0cm between the radiator and your body.
