

1 Label design

Below a description is made of the label that will be placed on the Personal Button / Personal Bracelet. The label will be laser printed on the backside of the Personal Button / Personal Bracelet. To inform the end-user about both FCC and ISED certification and certified radios used in the device, this information is shown in both this manual and on the label that is placed on the box in which the Personal Button / Personal Bracelet is delivered to the end-user. The size of the label on the Personal Button / Personal Bracelet is 20x20 mm and the label size on the box is 40x70mm.

1.2 Label items explained

See below for the explanation of all items on the label on a Personal Button. The same applies to the Personal Bracelet.

For all variants the label design is the same, only the article number is different.

See below for the explanation of all items on the label on the box of a device. Note that the article number, color code, product name and color are different based on the combinations. See for all versions of the labels 1.1.

1.3 Label placing on product

Below you can see an example of the location of the label on the Personal Bracelet. The label is located at the backside of the Personal Bracelet. The same applies to the Personal Button.

Personal Bracelet no BLE (art. no. 210231099B)

Personal Bracelet BLE (art. no. 210231299B)

Personal Bracelet Tracking only + BLE (art. no. 210231599B)

Personal Bracelet Easy Touch (art. no. 210231799B)

Personal Bracelet Easy Touch BLE (art. no. 210231899B)

Personal Button (art. no. 210231099)

Personal Button BLE (art. no. 210231299)

Personal Button BLE Tracking only (art. no. 210231599)

Below you can see the location of the label on the box of the Personal Button. The label is located at the side of the box.
