PRODUCT FUNCTIONS

CAUTION

1. Please keep the product away from strong magnetic fields.
2. Only use this product at temperatures between 32°F - 104°F (0°C - 40°C).
3. Do not submerge product in any liquid. When in contact with water, immediately turn off the power and allow to dry completely before using again.
4. Prevent from accidental drops as this may damage its internal components.
5. Do not charge the product with a higher voltage than specified.
6. Do not disassemble product or replace any of its components.
7. Keep product away from fire at all times. Do not place product on or underneath blankets or combustible materials.

AMBIENT LIGHT

Press the ambient light button for warm light. Rotate the control knob to dim (left to decrease, right to increase light strength). Press the ambient light button again for white light. Press a third time for candle light, press a fourth time to turn off the light.

BLUETOOTH MODE

Long press the power button to turn on bluetooth. Short press the minus key for the previous song, long press to decrease the volume. Short press the plus key for the next song, long press to increase the volume. Short press the play/pause button to start or stop the music.

CHARGING

Connect the included USB Type-C charging cable with a power source to begin charging (the LED indicator is steady red). When fully charged, the LED indicator turns off. When the battery is low, speaker will play a prompt before shutting down.

FCC DISCLAIMER

This device complies with part 15 of the FCC Rules. Operation is subject to the following two conditions:
(1) This device may not cause harmful interference, and
(2) This device must accept any interference received, including interference that may cause undesired operation.

Noted: Changed or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate this device. This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses, and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment to an outlet on a circuit different from that on which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.
