

**TRULY ELECTRONICS MFG., LTD**  
Truly industry city, shanwei Guangdong, P.R.C

Date (January 20, 2026)

Federal Communications Commission  
Equipment Authorization Branch  
7435 Oakland Mills Road  
Columbia, MD 21046

**Modular Approval Request**

**FCC ID: 2BOHY-851P2-C**

**The following attestation addresses the requirements to support modular approval:**

| <b>Modular approval requirement</b>                                                                                                                                                                                           | <b>Yes (provide brief statement)</b>                                                                                                                                                                                               | <b>No *</b> |
|-------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|-------------|
| (a) The radio elements must have the radio frequency circuitry shielded. Physical components and tuning capacitor(s) may be located external to the shield, but must be on the module assembly                                | The module contains a metal shield which covers all RF active components and circuitry to comply with FCC limits.                                                                                                                  |             |
| (b) The module must have buffered modulation/data inputs to ensure that the device will comply with Part 15 requirements with any type of input signal                                                                        | The module transmits part15 compliant signal, in which the maximum data rate is defined by the standard and where the data is buffered in the memory and not transmitted in excessive data rate nor on the over-modulated signals. |             |
| (c) The module must contain power supply regulation on the module                                                                                                                                                             | The module contains its own power supply regulation.                                                                                                                                                                               |             |
| (d) The module must contain a permanently attached antenna, or contain a unique antenna connector, and be marketed and operated only with specific antenna(s), per Sections 15.203, 15.204(b), 15.204(c), 15.212(a), 2.929(b) | The module uses Internal antenna                                                                                                                                                                                                   |             |
| (e) The module must demonstrate compliance in a stand-alone configuration                                                                                                                                                     | The module was tested stand-alone as shown in test setup photographs filed with this application.                                                                                                                                  |             |
| (f) The module must be labelled with its permanently affixed FCC ID label, or use an electronic display (See KDB Publication 784748 about labelling requirements)                                                             | There is a label on the module as shown in the labeling exhibit filed with this application. Host specific labelling instructions are shown in the installation manual .filed with this application.                               |             |
| (g) The module must comply with all specific rules applicable to the transmitter. The grantee must provide comprehensive instructions to explain compliance requirements                                                      | The module complies with FCC Part 15C and Part 15E requirements. Instructions to the OEM installer are provided in the installation manual filed with this application.                                                            |             |

Truly industry city, shanwei Guangdong, P.R.C

| Modular approval requirement                             | Yes (provide brief statement)                                                                                 | No * |
|----------------------------------------------------------|---------------------------------------------------------------------------------------------------------------|------|
| (h) The module must comply with RF exposure requirements | The module meets Mobile exclusion levels as shown in the RF exposure information filed with this application. |      |

\* Please provide a detailed explanation if the answer is "No."

Sincerely,

Signed: Jiankuai Li
