

How to pair the Bluetooth headset with the USB dongle?

Before pairing, please disable the Bluetooth function on your phone/computer previously connected with DH18B.

1) Plug the 2.4G Dongle into a USB port on your computer, it will be turned on automatically.

2) Once turned on, the indicator on the Dongle will flash red and blue alternately. it is in pairing mode now.

3) In the OFF state, toggle the switch to the ON position to power on. The headset will automatically enter pairing mode, with the LED indicator flashing alternating red and blue.

How to pair the Bluetooth headset with the USB dongle?

- 4) Dongle will connect with the headset automatically.

Once connected, the indicator on the Dongle will stay solid blue. The indicator on the headset will flash blue every 8 seconds.

TIPS:

- The dongle pairs exclusively with the headset.
- Avoid connecting to other Bluetooth devices during use.

● Troubleshooting

Q: The 24G Dongle won't turn on after plugging into the USB port. A: Try another USB port. After being plugged in, the Dongle will power on automatically and the indicator flashes blue quickly.

Q: The 24G Dongle doesn't pair with DH18B.

A: Please make sure the Bluetooth Dongle is in pairing mode and DH18B is in auto re-pairing mode, and wait them to pair automatically.

Q: The 24G Dongle won't auto-reconnect with DH18B.

A: Please make sure you plug in the Dongle first and then turn on DH18B.

Q: Unable to play music after connected with DH18B.

A: The headset can only play audio from one device at a time. To play music, please pause or stop playback on other device.

FCC Warning:

This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

Caution: Any changes or modifications to this device not explicitly approved by manufacturer could void your authority to operate this equipment.

This device complies with part 15 of the FCC Rules. Operation is subject to the following two conditions:

(1) This device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

This equipment complies with FCC radiation exposure limits set forth for an uncontrolled environment. This equipment should be installed and operated with minimum distance 0cm between the radiator and your body.
