TempoTec & EHRF
TempoTec Makes HiFi Easy

Variations V1

User Manual

Preface

TempoTec Variations V1 is a versatile, high-performance portable Hi-Fi player. It supports a wide range of both lossless and lossy audio formats, including **DSD, DXD, WAV, FLAC, ALAC, APE, WMA, DSF, DFF, ISO, AIFF, AAC, MP3, MP2, Ogg Vorbis, and OPUS.**

Featuring native bit-perfect output for both DSD and PCM signals, and equipped with professional features such as CUE sheet playback, gapless playback, and folder navigation, this player is designed to elevate your music experience and deliver exceptional sound quality.

Functional division

TempoTec Variations V1 is designed with usage scenarios in mind, organized into 5 core functional zones.

1.Music

Supports playback of music stored on the device's TF card.

2.Stream media

When in **streaming mode**, first connect to Wi-Fi, then select platforms like **TIDAL** or wireless protocols such as **AirPlay**.

3.Phone DAC

The V1 functions as a USB DAC when connected to a mobile phone via a USB-C to USB-C OTG cable.

4.PC DAC

The V1 functions as a USB DAC when connected to a computer via a USB-A to USB-C cable.

5.BT DAC

Connect to Bluetooth transmitter devices like smartphones via Bluetooth to play music.

Wi-Fi and Bluetooth Settings

On the V1 homepage, locate the "Settings" menu. Under "System Settings", select "Wireless Settings" to search for and connect to a Wi-Fi network.

On the V1 homepage, locate the "Settings" menu. Under "System Settings", select "Bluetooth Settings" to search for and connect to your desired Bluetooth device, such as Bluetooth earphones or speakers.

FCC Warning

This device complies with Part 15 of the FCC Rules. Operation is subject to the following two conditions:
1)This device may not cause harmful interference, and
2)This device must accept any interference received, including interference that may cause undesired operation.
changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.
NOTE: This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to Part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications.
However, there is no guarantee that interference will not occur in a particular installation.
If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:
a) Reorient or relocate the receiving antenna.
b) Increase the separation between the equipment and receiver.
c) Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
d) Consult the dealer or an experienced radio/TV technician for help.
FCC Radiation Exposure Statement: The device has been evaluated to meet general RF exposure requirements.
The device can be used in portable exposure condition without restriction.
