

Your Game Your Data

str8bat smart sticker features

Str8bat gives you bat speed, impact speed, sweetspot index, bat-lift angle, grounded shot percentage, timing index, wagon wheel, 3D rendering and more insights into your batting.

Quick-start Guide

Before you start, Please download the latest version of the str8bat cricket App on your smartphone.

Scan to download

STEP-1 Waking Up The Smart Sticker

1- Make sure the smart sticker is sufficiently charged (CHARGER LED will turn OFF once it is fully charged)

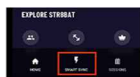

2- Swing your Bat like hitting a six to wake it up. You will see green LED blinking

STEP-2 Registering and Pairing with the Smart-Tech Bat

1- Switch ON the Bluetooth and Location on your Phone.

With Smart Sync

- 1 Click on the Smart SYNC on the home screen of the str8bat cricket App
- 2 You will see an "UNREGISTERED str8bat" Click on it.
- 3 Click on "REGISTER" on the popup and now click on "Register Device"
- 4 Your sensor will now be successfully registered.

Without Smart Sync

- 1 Open the Str8bat Cricket App > under "EXPLORE STR8BAT" > Click on "SENSORS" > Click on "Register Device" and then Click on your Device ID to Register.

(This is a one time process and should be done only if you are the owner of the Smart Sticker)

- 2 If your smart sticker is not Paired

Go to "SENSORS" Under "EXPLORE STR8BAT" > Click on "Pair a New Device" > Select your Device ID

STEP-3 Playing With the Bat

1- Make sure the sensor is ON, Green LED Blinking, Go to Playing area and Triple-Tap the Bat on the Ground as shown.

2- You will see a Blue LED rapidly blinking. When you see the Blue LED, Follow Point 3.

3- Place the bat on the crease as shown and keep it for 5 seconds.

4- Watch the green LED Blink Fast. A solid green LED means your bat is successfully calibrated!

5- Now your bat is ready to Play - you can also go to your app's smart sync panel to see the "Calibrated" Status.

STEP-4 insights from Str8bat Smart Sticker

With Smart Sync (Default)

1- After playing a session, Open the App and bring your bat closer to the App.

2- Your app will now automatically start the shots transfer and will create a session with default details.

3- Click on "VIEW" to see the session summary.

4- Use the edit option to change the session name and type.

5- Do not close or minimize the app during the auto transfer.

Without Smart Sync

Transferring the shots at the end of your session

1- After you have played your session, Click on **Sync** in the str8bat Cricket App; and you will see a screen with the no of shots captured.

2- Select the appropriate session type and name your session then click on **Save** to transfer the shots.

3- Do not Close or minimize the app during shots transfer.

Caution

- Do not try to peel or remove the Smart sticker from the bat once applied.
- There is no user serviceable / replaceable parts or battery inside the smart sticker.
- Keep the Smart sticker area of the bat away from sharp objects, as they may damage the Sensor.
- Keep the Smart bat away from the children below 3 years.
- Dispose according to e-waste disposal protocol.
