5.Precautions

When using for the first time,it is recommended to let the pet adapt to wearing the headphones for a short time first.

Avoid excessive volume to prevent damage to the pet's hearing.

Regularly check the wearing condition of the headphones to ensure no discomfort or injury to the pet.

If the headphones are damaged or malfunctioning,do not continue to use.

Do not force the headphones on the pet when it is sleeping or resting.

6.Maintenance and Care

Regularly wipe the surface of the headphones gently with a clean and soft damp cloth to remove stains and dust.

Avoid the headphones from contacting sharp objects or being subject to strong impacts.

How to choose the music?

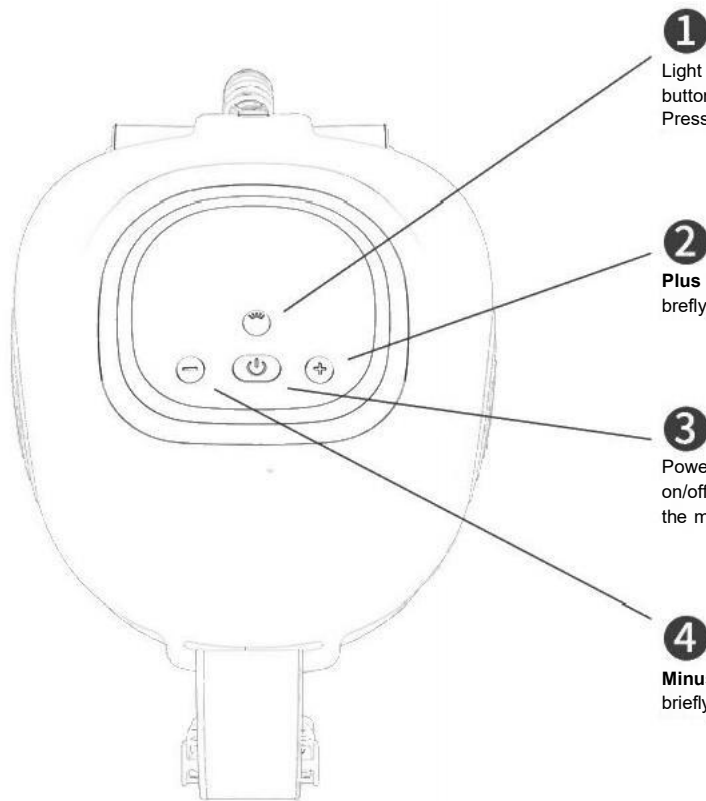

1.Choose soothing music with beautiful melodies for pets,which helps to relax the pet's mood.For example,classical music,natural sound effects,etc.

2.Avoid playing overly noisy and intense music to prevent scaring the pet.

3.Different types of music can be selected according to the pet's different states.For example,play soothing music when the pet is anxious to help it calm down;play lively music when the pet is playing to add fun.

This pet music headphones is an innovative product specially designed for your pets,aiming to bring a unique music experience to your pets,soothe their emotions and add fun to their lives.

FCC Warning

This device complies with Part 15 of the FCC Rules. Operation is subject to the following two conditions:

(1) This device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

NOTE 1: This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

NOTE 2: Any changes or modifications to this unit not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

The device has been evaluated to meet general RF exposure requirement. The device can be used in portable exposure condition without restriction.
