

5 in 1 Magnetic Wireless charger **User Manual**

Product Overview

M01A All-in-One Night Light Wireless Charger Integrated Magnetic Wireless Charging for Mobile Phones、Wireless charging for watches、Type-c with lightning Retractable Charging Cable and night light illumination, among other functions, all in one、Designed to provide users with convenient, efficient, and diverse charging and lighting solutions,Meet users' electricity needs in various scenarios.

- 1.Magnetic Wireless Charging for Mobile Phones
- 2. Wireless charging for watches
- 3. Type-C Input Port
- 4. Toggle Switch
(Position 1: OFF / Position 2: ON / Position 3: AUTO)
- 5. Type-C Retractable Cable
- 6. Touch Switch (Single-click to adjust brightness)
- 7. Touch Switch (Single-click to switch colors)
- 8. Lightmg Retractable Cable

8. Lightning Retractable Charging Cable

- ①Output Power: 15W
- ②Output Voltage/Current: 5V/3A
- ③Cable Specifications: High-quality tinned copper core with TPE outer sheath, wear-resistant and bend-resistant, with a retractable lifespan of ≥5000 cycles.
- ④Compatible Devices: Apple devices with Lightning connectors, such as iPhone, iPad, etc.
- ⑤When both cables are plugged in for charging simultaneously, the power is shared at 5V/3.4A.

Safety Precautions

- 1 This product is intended solely for charging mobile phones and electronic devices that comply with the Qi standard. Do not use it for any other purpose.
- 2 Do not disassemble the product without authorization.
- 3 Place the device in a well-ventilated area and avoid high temperatures or direct sunlight.
- 4 Children should not use this product unsupervised. Use this product under adult supervision.
- 5 Waterproofing is required during maintenance; keep the equipment powered off.

1. Magnetic Wireless Charging for Mobile Phones

- ①Charging Power: 15W
- ②Output Voltage/Current: 5V/1A, 9V/1.12A, 9V/1.66A
- ③Input Voltage/Current: 5V/2A, 9V/12.22A, 12V/1.67A
- ④Compatible Devices: Smartphones supporting magnetic wireless charging, compatible with the Qi wireless charging standard
- ⑤Charging distance: ≤5mm
- ⑥Charging Efficiency: Under standard test conditions, charging efficiency ≥75%
- ⑦Safety Protection: Features overvoltage protection, overcurrent protection, overheat protection, and foreign object detection to prevent safety hazards during charging.

2.Wireless charging for watches

- ①Charging Power: 2.5W
- ②Output Voltage/Current: 5V 0.5A
- ③Input Voltage/Current: 5V/1.0A
- ④Compatible Devices: Supports Apple Watch models currently available in bulk on the market.
- ⑤Charging distance: ≤2mm
- ⑥Charging Efficiency: Under standard test conditions, charging efficiency ≥70%
- ⑦Safety Protection: Features overvoltage protection, overcurrent protection, and overheat protection to ensure safe charging of the watch.

3.Type-C Import Port

4.Toggle Switch Function

- ①3-position toggle switch: 1st position OFF (night light off), 1st position ON (always-on mode), 1st position AUTO (sensor mode)
- ②In AUTO sensor mode, the light stays on for 30 seconds before automatically turning off. To reactivate, simply trigger the sensor again.

5.Type-C Retractable Charging Cable (Supports fast charging)

- ①Output Power: 20W
- ②Output Voltage/Current: 5V/2.4A, 9V/2.22A, 12V/1.67A PPS: 3.3V–11V 2A
- ③Cable Specifications: High-quality tinned copper core with TPE outer sheath, wear-resistant and bend-resistant, with a retractable lifespan of ≥5000 cycles.
- ④Compatible Devices: Smartphones, tablets, laptops, and other devices with a Type-C port.

6/7. Night Light Function

- ①Dimming Mode: Cool Light / Warm Light
- ②Colorful Lights: Seven colors of breathing lights cycle through
- ③Brightness adjustable range: 10–100 lumens
Brightness value: 500–2000 cd/m²
- ④Two tout switches
Touch 1:
Click to adjust brightness: Three brightness levels (Low, Medium, High)
Single click low brightness
Click once more for medium brightness
Click once more to highlight; cycle through sequentially.

Touch 2:
Click to switch colors
Color switching + lights off, single click for cool light,
Click once more on the warm light.
Click the colored light once more.
Click once more to turn off the lights; cycle through the sequence.

FCC Warning

This device complies with part 15 of the FCC Rules. Operation is subject to the following two conditions:(1) This device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.
Any Changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.
This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:
- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.
FCC RF exposure statement:
The equipment complies with FCC radiation exposure limits set forth for an uncontrolled environment. This equipment should be installed and operated with minimum distance between 20cm the radiator your body.
