键盘参数

- 1.有效操作距离：10米内
- 2.开机自动回连，回连超30秒后进入睡眠模式
- 3.待机无操作15分钟进入睡眠状态时间
- 4.工作电压：3.0-4.2V
- 5.电池容量：3.7V/500mAh
- 6.充电时长：1-2小时
- 7.待机时间：>200天
- 8.可持续工作时长：约6天
- 9.工作温度：-10° ~ +55°

平板设置

请注意：

- 1、操作系统：IOS 15.0及以上（设备必须支持触控）
- 2、轻触设置（无线配对成功后）：设置-通用-触控板-轻点以点按/双指辅助点（打开）
- 3、灵敏度设置：设置-通用-触控板-跟踪速度（调节至合适的速度）
- 4、触控板（无物理按键款）：无“拖动”手势功能选项

Magic keyboard case

USER MANUAL

Product Introduction

*Right side of the flat shaft: Charging Type-C port

Indicator lights

***Power-on indicator:** When the case is opened and the power is turned on, both lights will remain on for three seconds and then turn off.

***Pairing display:** After powering on, press option+B keys, the Caps Lock key white light will flash rapidly, and the keyboard will automatically enter pairing mode; when connecting to the tablet via Bluetooth, click to confirm pairing, and the white indicator light will turn off.

***Caps Lock indicator:** After successful pairing, the Caps Lock indicator will remain constantly lit when the keyboard is in Caps Lock input mode.:

***Low battery indicator:** When the keyboard current is below 10%, the red lock screen light will start flashing rapidly.

***Charging indicator light:** When the charging cable is plugged in, the red light on the lock screen button will stay on; the red light will turn off when the keyboard is fully charged.

Bluetooth connection

1. Open the keyboard case to power on the keyboard; press Option+B, the caps lock key's white indicator light will flash rapidly, and the keyboard will automatically enter Bluetooth pairing mode.

3. In the "Settings" menu, click the "Bluetooth" menu.

5. After a successful Bluetooth connection, the pairing indicator light will turn off, and the device will be displayed as "connected" in the Bluetooth device list.

2. Turn on and unlock your iPad, then tap the "Settings" icon.:

4. Turn on the "Bluetooth" switch. The iPad will automatically search for Bluetooth keyboard devices and find the Bluetooth keyboard device: Bluetooth Keyboard. Click on it, and the Bluetooth keyboard will automatically connect. Click to pair.

This device complies with part 15 of the FCC Rules. Operation is subject to the following two conditions: (1) This device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

Any Changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

Note: This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

FCC Radiation Exposure statement

The device has been evaluatec to meel general RF exposure requirement. The device can be used in portable exposure condition without restriction.
