

# Shenzhen Creality Ecosystem Technology Co., Ltd

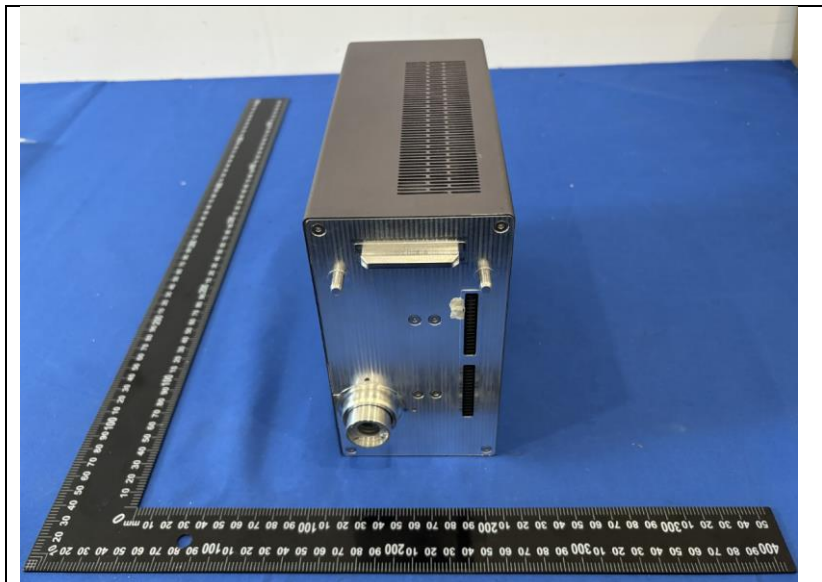

## Declaration on model difference

We the undersigned hereby confirm that these models are identical, and all models have the same RF module and antenna, PCB layout, schematics and component. The difference of the models are laser module and field lens, others are the same. Please see the following in detail.

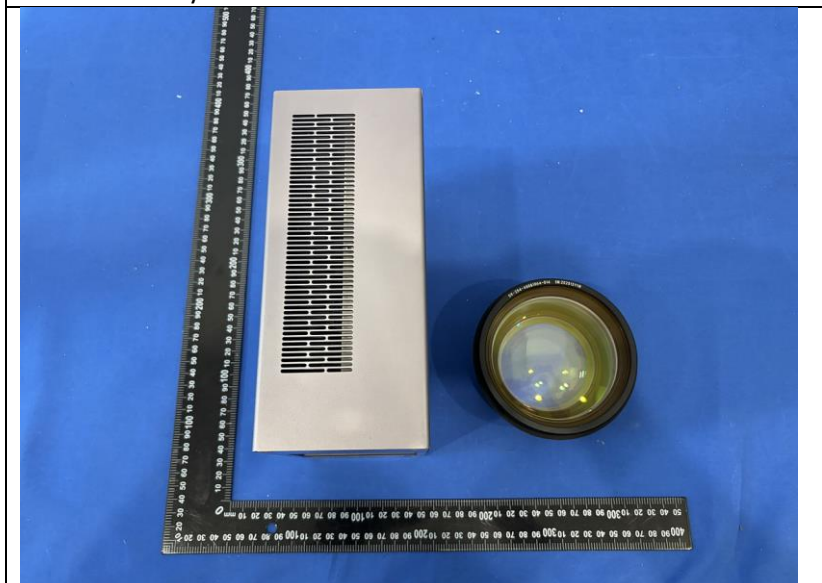

| Product name              | Trademark                                                                         | FCC ID         | Model no.                                                                                                                              |
|---------------------------|-----------------------------------------------------------------------------------|----------------|----------------------------------------------------------------------------------------------------------------------------------------|
| Laser Cutter And Engraver |  | 2BP7M-FALCONT1 | Creality Falcon T1, Creality Falcon T1 Fiber 20W, Creality Falcon T1 Diode 40W, Creality Falcon T1 Diode 20W, Creality Falcon T1 UV 5W |

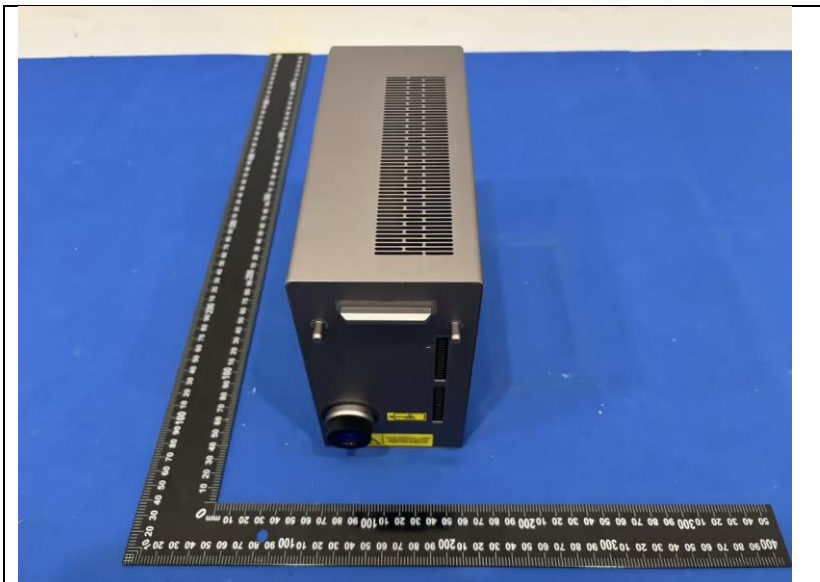

Model: Creality Falcon T1

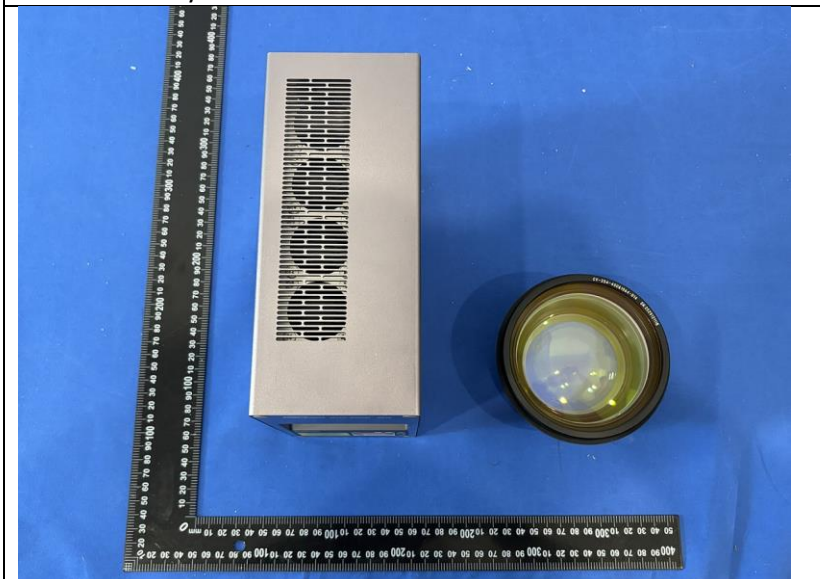

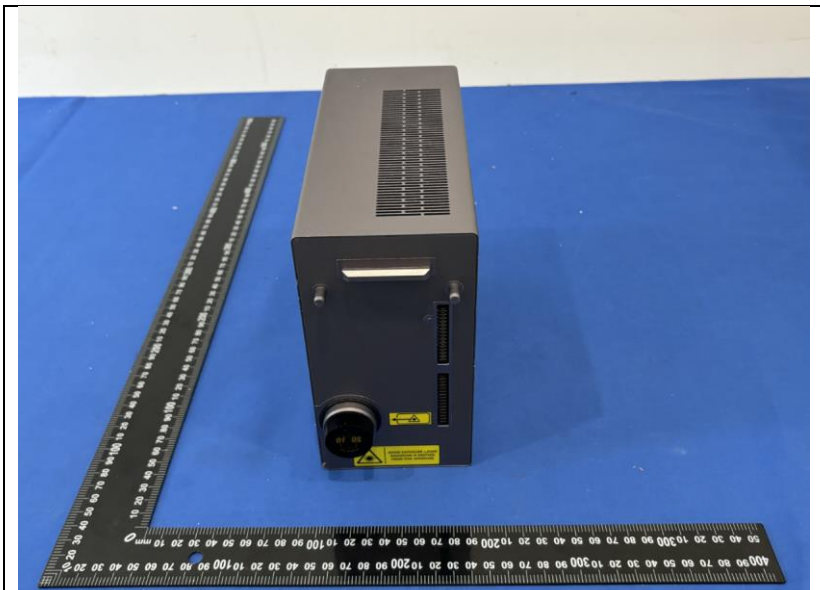

Model: Crealty Falcon T1 Fiber 20W

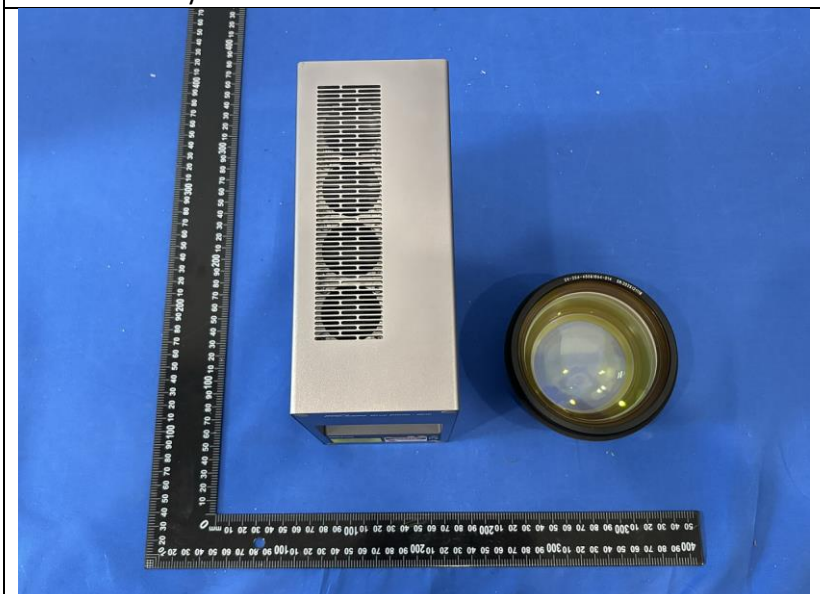

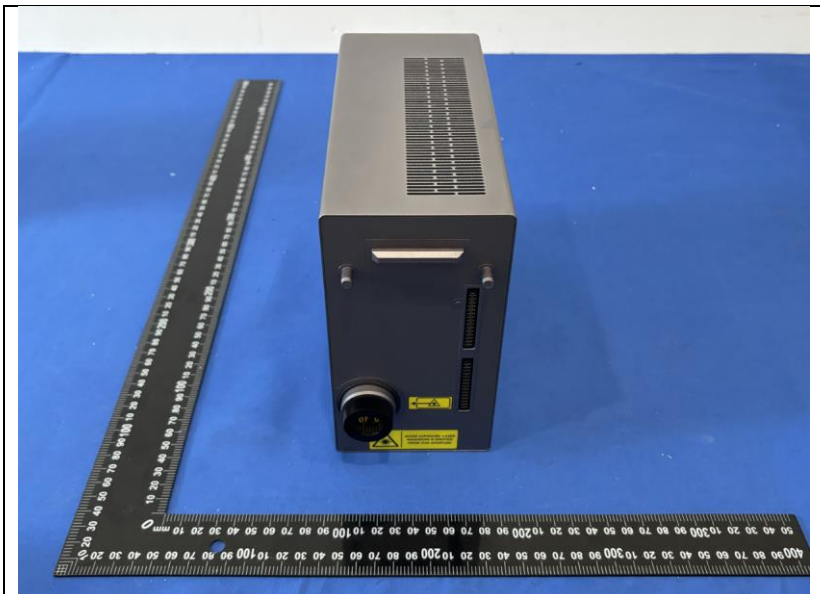

Model: Crealty Falcon T1 Diode 40W

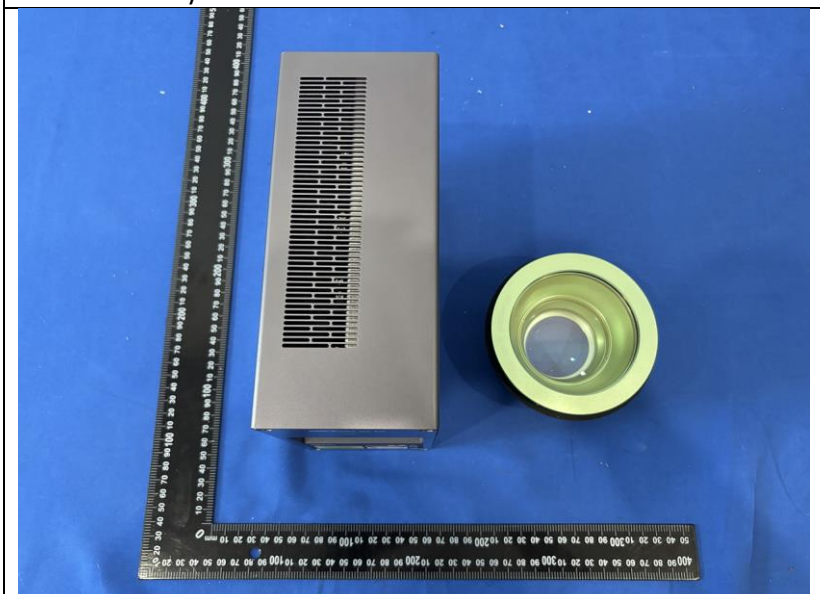

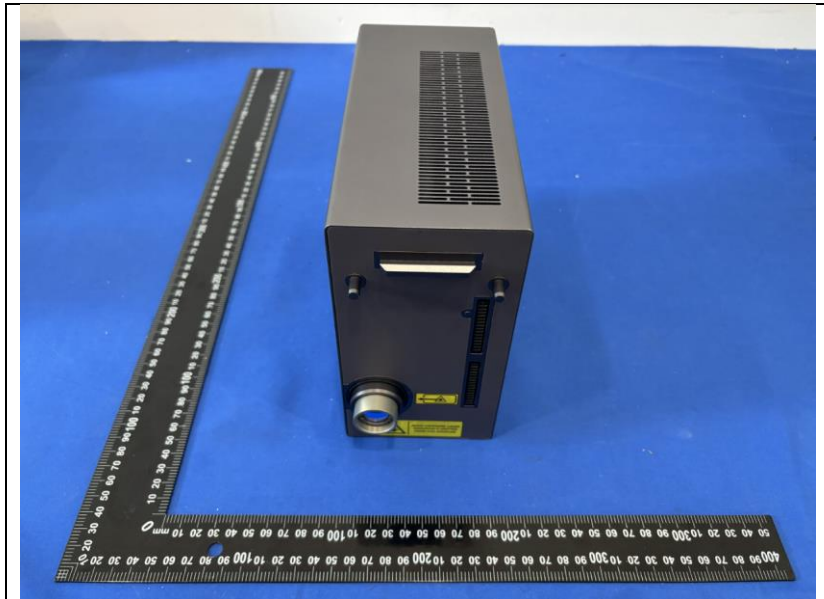

Model: Creality Falcon T1 Diode 20W

Model: Creality Falcon T1 UV 5W

**laser module position**

**field lens position**

The field lens and laser module can be removed without disassembling the device. As shown in the following picture:

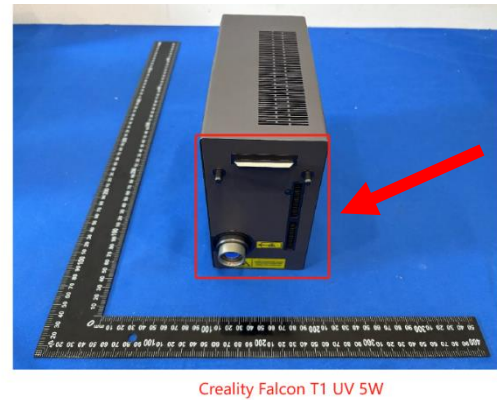

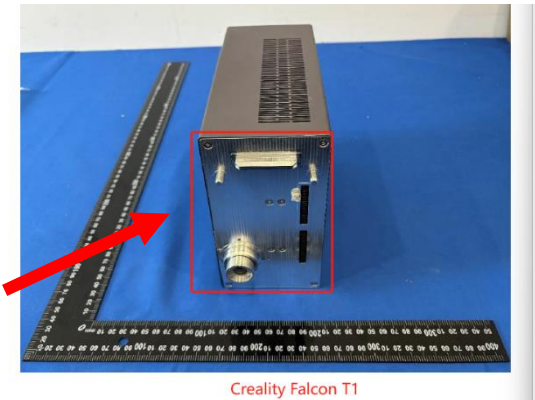

**laser module**

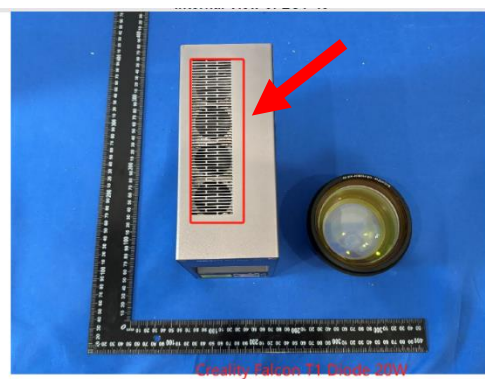

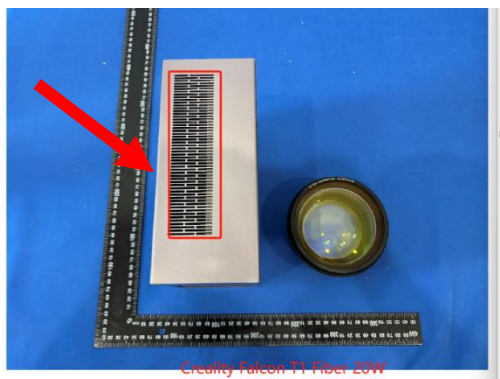

**field lens**

Creality Falcon T1 and Creality Falcon T1 UV 5W have a power output of 5W. Creality Falcon T1 Fiber 20W and Creality Falcon T1 Diode 20W have a power output of 20W. Creality Falcon T1 Diode 40W has a power output of 40W. The different laser intensities of the laser modules result in variations in their output powers.

Creality Falcon T1 and Creality Falcon T1 UV 5W have different appearances according to the location.

Creality Falcon T1 Fiber 20W and Creality Falcon T1 Diode 20W have different appearances according to the location.

Sincerely,

*Lixiong Cao*

Lixiong Cao
