

1. Product Description

When user key-in ignition lock and crank (IGN start), Body Control Module (BCM) will drive IMMO-ANT to authenticate transponder. After successful authentication between transponder(KEY) and BCM, BCM will authenticate with EMS/VCU, if the result is OK, engine will start.

1.2. Basic Product Information

Product Name:	IMMO
Model Name:	IMMO-A
Trade Mark:	NISSAN
Input Voltage Range:	DC 12V
Temperature Range:	-40°C~+85°C
Hardware Version:	1.0
Software Version:	1.0

Product Specifications

Operating Frequency	125 kHz
Type of modulation	125 kHz: 2ASK
Antenna Type:	125 kHz: Coil Antenna
