

Usage Method

2. Insert the adapter into the receiver. (Align arrow directions)
3. Plug the receiver with the adapter attached into your phone.

Note: When replacing the adapter, pull it straight out with both hands.

Usage Method

1. Insert the receiver clip into the camera's hot shoe/cold shoe interface.
2. Connect the receiver's 3.5mm port to the camera's MIC audio input port using a 3.5mm TRS cable.

Note: Set the recording volume of the camera to the minimum, the output volume of the receiver to the minimum, and achieve the best recording effect.

Phone Charging

When shooting short videos or live broadcasts

The phone can be charged through the interface on the receiving end.

⚠ Please use a charger with an output of 5V/1A or less.

Frequently Asked Question

1. Why can't I record normally after connecting to my phone?

*Please check if the connection indicator lights of the microphone and receiver are always on.

*Please check if the microphone battery is sufficient. If the battery is low, please charge it promptly.

*Some Xiaomi and Huawei phones need to update their phone versions (Settings > My Device > Version > Check for updates).

*Some brands of mobile phones, such as VIVO, OPPO, Realme, OnePlus, iQOO, etc., require the OTG function to be turned on and external recording devices to be turned on

Step 1: Open the "OTG" process: Phone settings > Other settings > OTG > Open or search for "OTG" in the search box in the settings and open it)

Step 2: Open the external device process: Settings > Sound and Vibration > More Sound Settings > Default Recording Device > External Device

2. Can't the microphone record for the camera app that comes with the device?

*Some brands of mobile phones have strict restrictions on the system, which prevent the microphone from obtaining audio permissions, not due to the quality of the microphone. If this situation occurs, please contact the brand phone manufacturer.

*This product is compatible with the vast majority of apps on the market. Please try using other apps instead.

3. Is there noise in the recorded sound?

*Check if the microphone is in noise reduction mode (the second indicator light is always on). Click the multifunction button to turn on noise reduction.
