Battery charging time: 1 h

Frequency range: 20Hz-20kHz

Impedance: $32\Omega \pm 15\%$

Product size: 50x50x25mm

Weight: 37g

PACKAGE

- Charging case x1
- Headphones x1
- Type-C charging cable x1
- User manual x1

PRODUCT DETAILS

1. Light indicator
2. Charging contacts
3. Type-C interface
4. Charging contacts
5. Touch area

SWITCHING ON

Open the lid of the charging case and take out the earbuds. At this point, the earbuds will automatically start connecting to your mobile phone.

CONNECTING VIA BLUETOOTH

1. Take the earbuds out of the charging case.
 2. Switch on Bluetooth on your phone.
 3. Search for a Bluetooth device named Proove Intro.
 4. Press to connect; a notification will appear indicating a successful connection.
- Caution: If no connection information appears, the earbuds will automatically enter standby mode after 2-4 seconds. If the earbuds are not connected to a device, they will automatically turn off after 3 minutes.

TURNING OFF

Place the left and right earbuds into the charging case, close the charging case lid, and the earbuds will automatically power off and start charging.

HEADPHONE CONTROL

WARNING

- Store the headphones in a dry and ventilated place, avoiding contact with water, high temperature, dust and other corrosive environments to avoid degradation of sound quality.
- Use the headphones according to the recommendations, paying attention to the effects of the environment.
- To ensure a stable connection, it is recommended that you keep a distance of no more than 10 meters between your phone and the headphones.
- If the earbuds cannot connect or work properly, do not disassemble them without permission.
- The warranty for the device and accessories is not covered in case of unauthorised disassembly.
- For charging, use a standard charger or one specified by the manufacturer.
- To ensure proper use of the headphones, make sure they have sufficient charge

Failure to comply with the operating instructions may invalidate the product and the warranty.

FCC Statement

This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to Part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

This device complies with part 15 of the FCC Rules. Operation is subject to the following two conditions:

(1) This device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

Changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

This equipment complies with FCC radiation exposure limits set forth for an uncontrolled environment .The device has been evaluated to meet general RF exposure requirement.

The device can be used in portable exposure condition without restriction.
