

CYBERSIGHT

USER GUIDE

For GUARDIAN

See ahead, see your safety

WARNING AND NOTICE

Failure to heed the following warnings could result in an accident, serious injury, or death.

Battery Warnings

- This device contains a lithium-ion battery. Improper use may cause damage, fire, chemical burns, or injury.
- KEEP BATTERIES AWAY FROM CHILDREN. Swallowing may cause severe injury or death within 2 hours.
- Do not disassemble, force discharge, overheat, puncture, modify, or incinerate batteries.
- Do not attempt to remove the built-in battery.
- Dispose of batteries and devices in accordance with local regulations.

Device Warnings

- Avoid exposing the device to heat sources or leaving it in high-temperature environments (e.g., inside parked vehicles).
- Operate and store the device within the temperature ranges specified in the manual.
- Use only certified cables and adapters.

Health Warnings

- This product does not provide protection against artificial light sources such as lasers or tanning equipment.
- Consult your physician before using a heart rate monitor if you have a pacemaker or similar device.
- Devices with optical heart rate monitors, pulse oximeters, or flashlights may trigger reactions in individuals sensitive to bright or flashing lights.

- Always consult your physician before starting or modifying an exercise program.
- Heart rate and blood oxygen readings are estimates and not intended for medical diagnosis.
- Activity tracking data is approximate and may not be fully accurate.

Bicycle Warnings

- Always operate bicycles safely and use good judgment.
- Ensure all hardware is properly maintained and correctly installed.

Navigation Warnings

- Always cross-reference device navigation with maps, signage, and real-world conditions.
- Use this device as a navigational aid only, not for precise measurements of direction, distance, or location.
- Exercise caution and judgment when following routes, especially off-road.
- Be prepared for environmental risks and changing trail conditions.

Software License Agreement

By using this device, you accept CYBERSIGHT's Software License Agreement:

- You are granted a limited license to use the embedded software.
- You may not decompile, reverse engineer, or create derivative works.
- Export control laws apply.

Map Data Information

- Map data may contain inaccuracies or omissions.
- Availability of complete and accurate maps varies by region.

SAFETY INSTRUCTIONS

Please read and follow these safety guidelines before using Guardian.

1. Usage Environment

- Outdoor use only: Guardian is designed for outdoor activities such as cycling and running.
- Do not use while operating any motor vehicles, including cars, motorcycles, electric scooters, or mopeds.
- Good weather conditions: Avoid using Guardian in heavy rain, snow, or extreme weather, as this may affect visibility and device performance.
- Use only within the temperature range of -10°C to 45°C (14°F to 113°F).

2. Stay Focused

Guardian's real-time HUD displays essential data with minimal distraction.

- Always stay alert to your surroundings.
- Do not let data distract you during exercise in complex or hazardous environments.

3. Correct Wearing

- Wear Guardian securely to prevent slipping during movement.
- Stop using and adjust immediately if you feel discomfort or pressure while wearing.

4. Child Safety

- Guardian is intended for adult use only.
- Keep out of reach of children.

5. Battery Safety

Guardian uses a built-in lithium-ion battery. Improper handling may cause damage, fire, chemical burns, leaks, or injury.

- Do not disassemble, modify, puncture, or damage the battery.
- Do not attempt to remove the built-in battery.
- This device supports 5V input charging and features built-in overvoltage protection. If the input voltage exceeds the safe 5V limit, the device will automatically stop charging to prevent damage to internal components.
- Keep the device and battery away from fire, high voltage, microwaves, radiation, and other hazardous environments.
- Do not expose the Guardian to direct sunlight, heat sources, or leave it inside a vehicle under high temperatures.
- For long-term storage, keep Guardian in a dry place at 5°C to 25°C (41°F to 77°F), with battery charged to 50-70%.
- If the device ignites, use a Class D fire extinguisher.
- Dispose of the device and battery properly, following local laws and regulations.

6. Device Care

- Clean Guardian with a soft, damp cloth. Avoid strong detergents, solvents, or chemicals.
- Keep away from insect repellents, alcohol-based cleaners, and other harsh chemicals that may damage plastic components.
- Use compressed air to gently clean the USB-C port.
- Do not spray water or use high-pressure cleaners.
- Avoid impacts, drops, or using hard or sharp objects on Guardian, including the HUD lens.
- Do not expose Guardian to excessive moisture, submersion, or prolonged humidity.
- Store Guardian in a cool, dry place, away from direct sunlight and heat sources.
- Do not leave it in parked vehicles under the sun.

7. Lenses Care

Guardian uses reinforced lenses with impact resistance for outdoor sports. The lenses also provide UV protection, anti-glare coating, and enhanced contrast for better visibility and comfort.

- Do not drop, bend, or apply excessive force to the lenses.
- Improper handling may cause damage or affect HUD display performance.
- Clean the lenses with the included microfiber cloth. You may use a small amount of clean water if needed. Do not use solvents or abrasive cleaners, as they may damage the lens coating.
- Avoid direct exposure of the lenses to high heat sources, such as fire, stoves, or prolonged sunlight on hot surfaces.
- If the lenses are cracked, deformed, or severely scratched, stop using the product and contact customer support for assistance.

8. HUD System Care

The HUD projection uses optical waveguide technology, which is safe for the eyes and resistant to daily wear.

- Do not press, scratch, or strike the HUD projection area.
- Avoid direct contact with sharp objects, which may damage the optical waveguide lens.
- Keep the projection area clean and free of fingerprints, dust, or debris to maintain display clarity.
- Use the included microfiber cloth for cleaning. High-purity alcohol may be used if needed. Do not use solvents or abrasive cleaners, as they may damage the lens coating and affect projection clarity.
- Avoid exposing the HUD system to strong impacts, excessive bending, or twisting.

DEVICE OVERVIEW

QUICK START - Power on

Indicator Light	Battery level
Red light (pulsing)	<10%
Blue light (solid)	10% to 90%
Green light (solid)	>90%

*The indicator lights up only while charging.

Connecting to the App

To connect your device to the app, please follow these steps:

- Ensure your device is powered on and nearby during the pairing process.
- Search for “CYBERSIGHT” in the App Store or Google Play.
- The CYBERSIGHT app requires iOS 13.0 or later and Android 10 or later.
- Download and install the app on your smartphone.
- Open the CYBERSIGHT app and pair your device via Bluetooth.
- For the best experience, please keep your app updated to the latest version.

Replacement

1. Removing the lens: Follow the steps below.

2. Installing the lens: Follow the steps below.

待确认

3. To replace the nose pad, use an **XX-size** screwdriver to unscrew the fastener beneath it. Remove the old nose pad and attach the new one.

XX-size

SPECIFICATION

For full details, please visit www.cybersight.sg.

Size	160*56.7*170.6 mm
IP Rating	IP54
Bluetooth	5.3
Weight	39g/43g
Compatible Devices	iOS, Andriod, Apple Watch, Bike Computer, Bluetooth Tracking Sensor, Smart Helmet, Radar Taillight
Replacement Lenses	Polarized or Photochromic Lenses
Lenses Features	UV Protection, Anti-Fog, Anti-Glare, Scratch Resistance
Lenses Color	Lake, Sliver, Gold, Photochromic
HUD System	Waveguide Technology, 30° FOV
Resolution	640*480
Display Color	Monochrome Green
Adjustable Brightness	10 nits - 1500 nits
Battery Type	Lithium Battery
Battery Life	8 hours
Battery Charging	USB-C, 90 mins
LED Indicato	3 Color
Adjustable Nosepads	Two types
Operating temperature	-10°C to 55°C (14°F to 131°F)
Materials	Nano Nylon

WARRANTY POLICY

For full details, please visit www.cybersight.sg.

CYBERSIGHT provides a limited warranty covering defects in materials and workmanship under normal use.

Warranty Period

- EU Countries: 24 months from the date of purchase (invoice date applies), in compliance with EU consumer protection regulations.
- Other Regions: 12 months from the date of purchase (invoice date applies).

Exclusions

- Scratches on lenses.
- Damage caused by misuse, accidents, or unauthorized repairs/modifications.
- Wear and tear from normal use.

For warranty claims, please submit a request via www.cybersight.sg to arrange for free repair or replacement of defective products.

This warranty does not cover any incidental or consequential damages, nor does it extend to any accessories or consumables.

MANUFACTURER'S DECLARATION

Optical lens classification: Cat.0– Cat.4

Cat. 0	Cat. 1	Cat. 2	Cat. 3	Cat. 4
 $tV > 80\%$	 $43\% < tV \leq 80\%$	 $18\% < tV \leq 43\%$	 $8\% < tV \leq 18\%$	 $3\% < tV \leq 8\%$

SINGAPORE CYBERSIGHT TECHNOLOGY PTE. LTD. declares that this device has been designed, manufactured, and tested in accordance with relevant international safety, health, and environmental protection standards.

The product complies with applicable directives and regulations, including but not limited to:

- CE marking requirements for electronic devices.
- RoHS directive on the restriction of hazardous substances.
- Other region-specific certifications where applicable.

All product specifications, features, and illustrations in this manual are subject to change without notice. CYBERSIGHT is committed to continuous improvement and reserves the right to update the product as necessary.

For regulatory information, certifications, and support, please visit: www.cybersight.sg

REFUND POLICY

For full details, please visit www.cybersight.sg.

Return Conditions

- CYBERSIGHT offers 14-day return period for online purchases.
- Items must be undamaged, and returned with original packaging, manuals, and all accessories.
- Returns will not be accepted if the product shows signs of misuse, scratches, unauthorized repairs, or missing parts.

Return Process:

- Submit a return request via the official website or through the original purchase channel.
- Provide a valid purchase invoice or proof of purchase.
- Once approved, return the product to CYBERSIGHT.
- The buyer is responsible for return shipping costs unless the product has a confirmed quality defect.

Refund Process

Refunds will be processed via the original payment method. Once the returned product passes inspection, the refund will be issued within 5-10 business days. In special cases, the full refund process may take up to 14 calendar days.

Important Notes

This policy applies to online purchases only.
For products with confirmed manufacturing defects, CYBERSIGHT will cover return shipping costs.

FCC Caution

This device complies with part 15 of the FCC Rules. Operation is subject to the following two conditions:

- (1) This device may not cause harmful interference, and
- (2) this device must accept any interference received, including interference that may cause undesired operation.

Any Changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

Note: This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

The device has been evaluated to meet general RF exposure requirement. The device can be used in portable exposure condition without restriction.
