Power installation

Press the button

Rotate counterclockwise to remove

Clockwise rotation locks

Installation steps

Adapter installation

Clean the wall before installation

Tear off the adhesive backing

Press the light to make it stick tightly

Mounting screw

Connect to the controller

Controller and power connection

Solar installation

Connection between solar panel and controller

Open the switch button

Reminder: The installation steps for the solar powered lamp are the same as those for the adapter model, and can be installed according to the above steps

Specification parameters

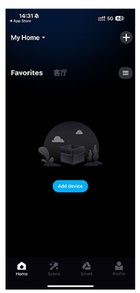

model	WS-WYD-30
Product size	30.15x30.15mm
Input voltage	DC 24V
Lamp power	1W
LED type	RGB 5054 LED
LEDs number	1
Color temperature	RGB addressable
Waterproof grade	Ip67
Shell body material	ABS+PC
Beam angle	⩾140°
Lifespan	⩾50000h

APP connection steps

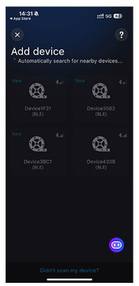

1、Scan the QR code to download the APP

2、 Open Bluetooth and WIFI, select to add device

3、Select the corresponding device to add

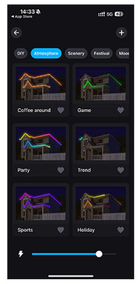

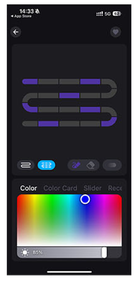

4、After successful addition, you can enter the operation homepage

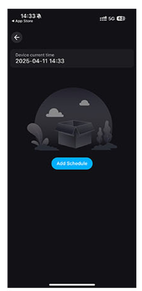

5、You can click on the corresponding function control

Compliance FCC Statement

This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

—Reorient or relocate the receiving antenna.

—Increase the separation between the equipment and receiver.

—Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.

—Consult the dealer or an experienced radio/ TV technician for help.

This device complies with part 15 of the FCC Rules. Operation is subject to the following two conditions: (1) This device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

Caution

Any changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

FCC Radiation Exposure Statement

This equipment must be installed and operated in accordance with provided instructions and the antenna(s) used for this transmitter must be installed to provide a separation distance of at least 20 cm from all persons and must not be co-located or operating in conjunction with any other antenna or transmitter. End-users and installers must be provide with antenna installation instructions and transmitter operating conditions for satisfying RF exposure com
