Checking the Battery Level

Press the power button to check the battery level.

- ① White Light: Battery Level Indicator
- ② Blue Light: Wireless Charging Indicator
- ③ Power Button

Charging Your Devices

Charging your devices wirelessly

The white battery level indicator and the blue wireless charging indicator will illuminate when your devices are being charged wirelessly.

②

Note: To manually activate or exit the wireless charging mode, press the power button twice.

Charging your devices via the Built-In USB-C Cable or USB-C Port

Note: Use the built-in USB-C cable to achieve fast charging. Alternatively, enhance wireless charging speed by not using your phone and shutting down apps with high power consumption. When your device is charged via the built-in USB-C cable, wireless charging will be automatically disabled. Press the power button twice to reactivate wireless charging mode.

Recharging Your Power Bank

Recharge your power bank via the built-in USB-C cable or USB-C port.

Charging and Recharging Simultaneously

Korean SN Code Rules

Note: The 'X' of SN Code: xxxxxxxxxxxxxxx is a variable, see below table.

Variable 'x'	Range of variable	Content
Seventh	0-F	Denotes the hardware version which is not effected on the safety compliance.
Ninth and tenth	20,21,22,23,24...	Denotes the year, 20 means 2020, 21 means 2021, 22 means 2022, 23 means 2023, 24 means 2024, and so on.
Eleventh & twelfth	01,02,03...	Denotes weeks, 01 means the first week in this year, 02 means the secondary week in this year, and so on.
The last four	0001-FFFF	Denotes serial No.

Specifications

Cell Capacity	10,000 mAh
Input	USB-C Cable / USB-C Port: 5V = 3A / 9V = 3A / 12V = 2.5A (30W Max)
Output	USB-C Cable / USB-C Port: 5V = 3A / 9V = 3A / 10V 2.25A / 12V = 2.5A (30W Max)
Wireless Output	5W / 7.5W / 10W / 15W
Total Output	5V = 3A (15W Max)

Important Safety Instructions

When using this product, basic precautions should always be followed:

- 1 Use of a power supply or charger not recommended or sold by the product manufacturer may result in a risk of fire or personal injury.
- 2 Operating temperature should be between 0°C to 35°C / 32°F to 95°F.
- 3 Do not disassemble this product. Take it to a qualified service person when service or repair is required. Incorrect reassembly may result in a risk of fire or personal injury.
- 4 CAUTION: Risk of explosion if the battery is replaced by an incorrect type.
- 5 To reduce the risk of injury, close supervision is necessary when the product is used near children.
- 6 Do not expose power bank to rain or snow.
- 7 Do not use the power bank that is damaged or modified. Damaged or modified batteries may exhibit unpredictable behavior resulting in fire, explosion or risk of injury.
- 8 Do not expose a power bank to fire or excessive temperature. Exposure to fire or temperature above 100°C may cause explosion.
- 9 Turn off the power bank when not in use.
- 10 CAUTION: Risk of Fire and Burns. Do Not Open, Crush or Incinerate. Follow Manufacturer's Instructions.
- 11 The product is designed for use with IT equipment only.
- 12 The product is intended to be operated up to 2000m above sea level.

This device complies with Part 15 of the FCC Rules

- 1 Operation is subject to the following two conditions:
 - * This device may not cause harmful interference.
 - * This device must accept any interference received, including interference that may cause undesired operation.
- 2 Any changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.
(NOTE: This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to Part 15 of the FCC Rules.)
- 3 These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses, and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation.
- 4 If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:
 - * Reorient or relocate the receiving antenna.
 - * Increase the separation between the equipment and receiver.
 - * Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
 - * Consult the dealer or an experienced radio/TV technician for help.
- 5 The device has been evaluated to meet general RF exposure requirements.
- 6 The device can be used in portable exposure conditions without restriction.

UTPAL

30W FAST CHARGING WITH BUILT-IN USB-C CABLE 10000MAH CAPACITY

Built-in USB-C cable

Built-in USB-C cable always ready to go.

Smart AI Chip

Next-gen AI chip for superior performance and faster charging.

PD 30W Fast Charging

Wire charging powers your iPhone 16 to 65% in just 30 minutes.

Dual USB-C Output

Charge two devices simultaneously with dual outputs for everyday convenience.

Wireless Charging

Snap on for up to 15W fast wireless charging — no cables needed.

Product Model:
YM-S02

Dimensions:
106 x 69 x 19.5 mm

Weight:
214g
