Safety Information

Before using this product, carefully read the following safety instructions and adhere to all standard safety precautions. Any operation that does not comply with this manual may result in damage to the product.

- 1. Wear the watch approximately one finger-width from your wrist bone. Loose wearing may affect heart rate monitoring accuracy.
- 2. When selecting heart rate measurement on the watch, keep your wrist still during the process.
- 3. With IP67 waterproof rating (equivalent to 3-meter depth), this device can be worn during pool swimming, shallow water swimming, and other aquatic activities in shallow waters. However, it is not suitable for hot showers, saunas, or diving. Avoid direct high-speed water impact during water sports. Waterproof performance is not permanent and may degrade over time.
- 4. The touchscreen does not support underwater operation. After the watch gets wet, dry the surface with a soft cloth before operation.
- 5. Avoid wearing the watch too tightly during daily use. Maintain dry and breathable skin contact with the watch, and regularly clean the strap with clean water. If skin contact areas show redness/swelling, discontinue use immediately and consult a doctor.
- 6. Keep power adapters, charging docks and devices in dry environments during charging. Do not handle with wet hands. Ensure that the power adapter, charging dock, and device are not exposed to rain or soaked in liquid.
- 7. If the product is not used for an extended period, fully charge the watch, turn it off, and store it in a cool, dry place. Recharge it at least every 3 months.
- 8. Please use this device within a temperature range of -10°C to 45°C. Extreme environmental temperatures may cause device malfunction.
- 9. If the watch impacts hard objects or suffers severe external force causing partial screen breakage, do not touch or attempt to remove broken fragments and discontinue use immediately.
- Before using this product, read the safety instructions and follow all general safety precautions.
- Any operation inconsistent with this manual may cause damage to the product.
- 10. Please charge the device using the included charging dock or cable provided with the product. When charging with a power adapter, use one that complies with relevant safety standards.
- 11. Do not disassemble, impact, crush, or expose the product to fire. This may cause an explosion.
- 12. The product contains non-removable lithium batteries. Do not replace batteries yourself to avoid damaging the battery or device. Batteries should only be replaced by authorized service centers using identical models. Incorrect battery types may compromise safety protections (e.g. fire, explosion, leakage). Discontinue use if the battery shows significant swelling.
- 13. Do not expose the product or battery to fire or high-temperature ovens, or mechanically crush or cut the product/battery, as this may cause battery explosion.
- 14. Do not expose batteries to excessive heat sources such as sunlight, open flames, or ovens, as this may cause fire or explosion.
- 15. Do not expose the product or batteries to extreme heat/low pressure environments, which may cause explosions or flammable liquid/gas leakage.
- 16. Do not dispose of used batteries in household waste. Dispose of this device and used batteries in accordance with local laws and regulations.
- 17. This product is not a toy. Small parts in the device and accessories may pose choking hazards or cause other injuries to children. Keep the product out of children's reach.
- 18. Keep the product's indicator lights away from children's and animals' eyes during use.
- 19. This product is not a medical device. Any data/information provided by the product should not be used as a basis for diagnosing, treating, or preventing diseases.
- 20. To prevent potential hearing damage, avoid prolonged high-volume usage.
- 21. ~~~ Symbol indicates direct current voltage.

FCC Statement

This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to Part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:
-- Reorient or relocate the receiving antenna.
-- Increase the separation between the equipment and receiver.
-- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
-- Consult the dealer or an experienced radio/TV technician for help.

This device complies with part 15 of the FCC Rules. Operation is subject to the following two conditions:
(1) This device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

The device has been evaluated to meet general RF exposure requirement. The device can be used in portable exposure condition without restriction.
Changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.
