ACCESSORIES

Projector x 1 	
Power Cable x 1 	3-in-1 Video Cable x 1 
Remote Control x 1 	User Manual x 1 

PRODUCT OVERVIEW

REMOTE OVERVIEW

Note: Batteries are not supplied in the package, you must purchase two additional AAA batteries by yourself.

***Note:**

1. While using the remote control, point it toward IR receiver.
2. To avoid battery leakage corrosion, please take the batteries out if not use it for a period of time.

KEYSTONE ADJUSTMENT

- Vertical Keystone Correction will adjust automatically, Horizontal Keystone Correction can be adjusted on Setting.

FOCUS ADJUSTMENT

- Press the "F+" or "F-" to find the sharpest image.

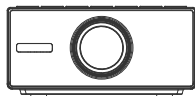

Tips: For the best result, please adjust the keystone first, then the Focus.
It's normal when sharpness in the central, slightly blur in the edge.
It is highly recommended to place the machine on a horizontal surface.

WIRED CONNECTION

HDMI Connection

Make sure to select the "HDMI" channel on the home page!

For Windows 7 and Higher systems, press the Windows key+P simultaneously and select "DUPLICATE."

WIRELESS CONNECTION

• WIFI Connection

You can connect your projector to your router's WiFi by accessing the Network page.

• Screen Mirroring (Android/Windows)

Notice: Select the appropriate system for wireless casting according to your device's system. Select the casting APP on the projector and Turn on the "Wireless Display" on your Android or Windows device.

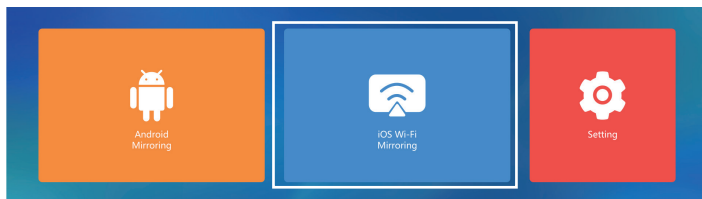

Notice: For "Windows 7" and Higher systems, press the "Win+P" simultaneously and select "DUPLICATE."

 Tip: Window 7+ system, you can use hot key "Win+K" for fast connection.

• Screen Casting (Apple Device)

- ① Connect the projector and mobile device to the same router WiFi.
- ② Select the "Screen Mirroring" on your apple device and click to cast the screen.

 Tips: Make sure your device and projector are connected to the EXACT same WIFI.

OTHER INSTRUCTIONS

• Cleaning Method

Notice: The clean spot is on the bottom/back of the machine.

1. Peel Off the sticker on the bottom/back of the projector.

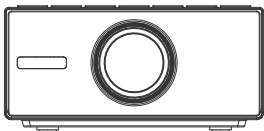

2. Wipe all side of the lens with a cotton swab.

 **Tips:** Be sure to turn off the power when cleaning the device.

• Fire Stick or other TV stick, TV Box Connection

(Not Included)

 **Tips:** The Fire Stick is using the HDMI source

Q1: What if the projector does not recognize the Fire Stick?

A: The Firestick may be in sleep mode. Plug the charge of the firestick back in.

Q2: What if there is no sound?

A: Conduct the following steps on Firestick:

Home page> Display & Sound>Video PIN>Audio>Surround Sound and choose PCM

USER PRECAUTIONS

1. Please use the projector in the dark room for the best results.
2. It is normal when sharp in the central, blur in the edge.
3. The optimum projection distance is 2M/6.5ft.
4. Never look into the projector lens when the lamp is on. This can damage your eyes and is especially dangerous for children.
5. Please kindly note projectors with mirrored may incompatible with some Netflix and Hulu videos due to copyright issues. To solve this, **Fire stick is highly recommended**.
6. For laptop connection, ensure "1920*1080" resolution is selected after connect to the projector.
7. For Android Wireless Connection, your Android device must support "Multi-Screen/Wireless" display. Name of "Screen Mirroring" function may differ from different devices.

• Here is some examples:

Huawei	Wireless Projector
Samsung	Smart View
XIAOMI	Cast
VIVO	Screen Mirroring
One Plus	Wireless Display
OPPO	Screen Cast

FCC WARNING

This device complies with part 15 of the FCC Rules. Operation is subject to the following two conditions:

- (1) this device may not cause harmful interference, and
- (2) this device must accept any interference received, including interference that may cause undesired operation.

Any changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

NOTE: This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to Part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
 - Increase the separation between the equipment and receiver.
 - Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
 - Consult the dealer or an experienced radio/TV technician for help.
- To maintain compliance with FCC's RF Exposure guidelines, This equipment should be installed and operated with minimum 20cm distance between the radiator and your body: Use only the supplied antenna.
