

Remote Control (excluding batteries)

Key function

When using the remote control, please point it directly at the heater's remote receiver.

Remote Control Battery Installation

① Press and hold the remote control battery back cover arrow and remove it in the direction of the arrow.

② Replace with the same battery.
Attention: The positive and negative poles of the battery correspond to the internal markings.

Note: *If the indicator on the remote control doesn't turn on any more, please consider replacing the battery.*

Note: The remote control does not come with batteries installed at the factory. Please install two AAA batteries correctly before use, making sure to observe the correct polarity (the protruding end of the battery is the positive terminal, and the flat end is the negative terminal).

WARNING

Chemical Burn Hazard. Keep batteries away from children.

This product does not contain batteries. If a new or old battery is swallowed or enters the human body, it can cause severe internal burns and can lead to death in as little as 2 hours. Always completely secure the battery compartment. If the battery compartment does not close securely, stop using the product, remove the battery, and keep it away from children. If you think batteries might have been swallowed or placed inside any part of the body, seek immediate medical attention.

The batteries must be disposed of properly, including keeping them away from children. Even used cells may cause injury.

FEDERAL COMMUNICATION COMMISSION INTERFERENCE STATEMENT – PART 15

This device complies with Part 15 of the FCC Rules. Operation is subject to the following two conditions:

1. This device may not cause harmful interference, and
2. This device must accept any interference received, including interference that may cause undesired operation.

NOTE: This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to Part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, interference by one or more of the following measures:

which can be determined by turning the equipment off and on, the user is encouraged to try to correct the

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

The device has been evaluated to meet general RF exposure requirement.

The device can be used in portable exposure condition without restriction.

Changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.
