How to install?

Step1:
Screw it on tight

Step2:
Screw it on tight

Step3:
Screw it on tight

Step4:
Screw it on tight

Step5:
Screw tube to
base.

Re-pairing the remote:

1. First, disconnect the adapter from the floor lamp to ensure it is powered off.
2. Reconnect the adapter to the lamp.
3. Within 10 seconds of powering on, press and hold the power button (located at the top right of the remote) for 3-5 seconds.

If the pairing is successful, the lamp will flash.

Troubleshooting

1. The remote control does not work.

- a. Check if the remote control battery has power.
- b. Re-Pair the remote control.

2. Other Issues

If the floor lamp is not working properly, please contact us via email, and we will respond within 48 hours!

Usage

There are two ways to control: Button or Remote control.

1. Button Control

The image on the right shows the four control buttons on the floor lamp head.

2. Remote control

Below is a diagram of the functions of the 12 buttons on the remote.

WARNING:

- ◆ **READ INSTRUCTIONS:** Read the manual before use.
- ◆ **INDOOR USE ONLY:** For dry, indoor locations only. Not waterproof.
- ◆ **KEEP DRY:** Avoid using in damp or wet locations. Do not handle with wet hands.
- ◆ **ENVIRONMENT:** Keep away from hot, dusty, or humid areas.
- ◆ **POWER OFF:** Unplug before cleaning or long periods of non-use.
- ◆ **USE INCLUDED ADAPTER:** Only use the included 24V adapter.
- ◆ **INSPECT REGULARLY:** Check for damage. Stop use if damaged or malfunctioning.
- ◆ **CORD SAFETY:** Do not run under carpets or heavy objects. Keep away from heat.
- ◆ **CLEANING:** Use a soft, dry cloth only. Ensure the lamp is unplugged and cool.

MADE IN CHINA

This device complies with part 15 of the FCC Rules. Operation is subject to the following two conditions: (1) this device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

Any changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

NOTE: This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to Part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

The device has been evaluated to meet general RF exposure requirement. The device can be used in portable exposure condition without restriction
