Chargers and Batteries

Charger and Battery

Before using any charger to charge the headset, please check whether the specifications of the charger meet the requirements (recommended charger output voltage is 220V AC, output power is 100W-500W). The charging voltage is extremely high and it is possible to cause Bluetooth headset damage.

WARNING: Please do not use any other types of chargers (such as mobile phone chargers, power adapters, etc.) to charge the headset, as they may violate approval and warranty terms, and may cause damage. If the factory is shipped with a charging cable, you need to connect to a certified Charger or power adapter to ensure the safety and reliability with the product. Serious impact may damage the electronic microphone and battery.

Rechargeable Battery

This headset uses a built-in non-removable rechargeable battery. Do not attempt to remove the battery from the headset, as it may damage the headset. When you are not using the headset, please turn it off to save power.

1. When the connected headset flashes red and you hear a low battery sound, it means that the headset is low on power. If you continue to work it will automatically shut down to protect the battery.

2. Plug the charger into an AC power outlet.

3. Plug the headset into the headset cable.

4. When the headset is fully charged, if the charging does not stop, disconnect the power supply from the headset, then plug it back into the headset and try again.

When the headset is fully charged, the red light goes off and the blue light is always on.

5. The headset will be fully charged when the blue light is always on.

6. The actual call time and standby time may differ from the phone, usage settings, and other factors.

- The correct position of this headset speaker is the cheek bone in front of the ear.
- Listening to loud volume music for a long time may bring discomfort, please try to use a medium or so volume as much as possible to avoid using large volume for a long time.
- Regulate the volume, using headphones will affect your perception of the surrounding environment. Pay more attention when using headphones!
- Do not throw, sit or press the headset or immerse it in salt water; Keep the headset away from fire and high voltage equipment.
- Not suitable for children under three years old, including small parts.
- Do not classify it as domestic waste, and send it to the corresponding local electrical and electronic equipment recycling station.
- The content of this manual is subject to change without notice and properly damaged, modified or written off by the manufacturer's company.
