

4D-V20

Age Appropriate: 14 and up

FOUR AXES INSTRUCTION MANUAL

wifi version

WARNING

1. Packaging and instructions contain important information and should be retained.
2. It is your responsibility to ensure that no harm is done to any person or property.
3. The commissioning and installation of the aircraft shall be carried out strictly in accordance with the operating instructions. Attention shall be paid to maintaining a distance of 20-25 meters between the aircraft for the size or other persons who fly to avoid the aircraft flying and leaving the field of view, face and body of a person, causing harm.
4. The company and the manufacturer shall not be responsible for any loss or damage or harm caused by improper use or operation.
5. Children operating aircraft should be supervised by adults, this product is not suitable for children under 14 years of age to operate.
6. Please follow the precautions in packing instructions for proper installation and use. Some parts should be assembled by adults.
7. Products contain small parts, please put them in the child can not reach the place to prevent the child accidental injury or harm themselves.
8. Do not play on the road or in areas with important water to avoid accidents.
9. Please put away the packing material in time to avoid causing harm to children.
10. Do not remove or modify the aircraft. Removal or modification may cause the aircraft to malfunction.
11. The charging cord shall be inserted into the specified power supply. 5V = 2A is indicated on the product label.
12. Do not use different types of lithium-ion batteries.
13. Charging cables are not toys.
14. When charging a rechargeable battery, it must be carried out under the supervision of an adult, and it must be charged away from inflammable materials. Please do not leave the monitoring area while charging.
15. Please do not short circuit, squeeze the battery, or so as not to explode.
16. Do not use any different types of lithium-ion batteries.
17. The aircraft can not be charged from batteries with them to be pulled out to charge.
18. Do not short circuit, disassemble, or put the battery into a fire. Do not place the battery in hot liquid, blow, such as in the sun or electric heating device.
19. Aircraft should be used at a safe distance from the highest rotating propeller to avoid the danger of entanglement and fire.
20. Do not use it to avoid over the hot. Please do not use for heating food.
21. USB charging cable must be charged with the data cable provided by the company, otherwise it will cause serious damage to the battery and cause accidental damage.
22. In order to guarantee the requirement of the magnetic environment of the aviation radio station, it is forbidden to be within 10 km on both sides of the center line of Runway and 20 km at both ends of runway. No more models, no more drones, stop using models and drones in the no-fly zones issued by the relevant state departments.

FCC Warning

This device complies with part 15 of the FCC Rules. Operation is subject to the following two conditions: (1) This device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

Any Changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

Note: This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

The device has been evaluated to meet general RF exposure requirement. The device can be used in portable exposure condition without restriction.
