|--------------------------------|-------------------------------|
| 1. Camera Button | 8. Quick-Release Button |
| 2. Buzzer | 9. Touchscreen |
| 3. Microphone | 10. Vision Dock Button |
| 4. Lens | 11. microSD Card Slot |
| 5. Status LED | 12. USB-C Port |
| 6. Contacts | 13. Speaker |
| 7. Quick-release Locking Clips | 14. Air Pressure Balance Hole |

Charging

Open the USB-C port cover and connect a USB-C charger to the USB-C port using the provided cable.

Taking the Shot

Camera Button	Press and hold: Power on/off.
---------------	-------------------------------

	Press once when powered on: Take a photo or start/stop recording.
	Press once when powered off: Power on quickly and begin shooting.
Vision Dock Button	Press and hold: Power on/off.
	Press once when powered on: Take a photo or start/stop recording.
	Press twice when powered on: Switch between shooting modes.

Installing the Xtra app

Safety Guideline

	By using this product, you signify that you have read, understand, and accept the terms and conditions of this guideline.
---	---

Before Use

	- The camera unit is waterproof to 10m. Make sure all protective covers are firmly closed and all rubber seals are clean. All the holes on the product are waterproof. DO NOT tamper with the holes. DO NOT use the multifunctional vision dock underwater.
---	--

During Use

	- Keep the product away from magcards, implantable medical devices such as pacemakers, hard disks, RAM chips, and other devices to avoid interference. DO NOT use the product in hot springs, corrosive or unknown liquids, or extreme underwater environments. - This product should only be used in temperatures from -20° to 45° C (-4° to 113° F). Use of the battery at temperatures above 45° C (113° F) can lead to a fire or explosion. A low temperature will reduce the performance of a battery. DO NOT disassemble or pierce the product in any way or the battery may leak, catch fire, or explode.
	Intricate components inside the product may be damaged upon impact and cause the product to malfunction. DO NOT drop the product during use.

Storage

	• DO NOT leave the product near heat sources. DO NOT leave the product inside of a vehicle on hot days. • DO NOT store the product for an extended period of time after fully discharging the battery. Otherwise, the battery may over-discharge and cause irreparable damage. • If the contacts are wet or dirty, clean them with a soft, dry cloth before connection, or it may cause a short circuit or corrosion. • Some small parts of the product are choking hazard. Keep out of reach of children.

Product: XTRA ATTO

Model: XCAMB01 / XCAMB02

Website: www.xtra-us.com

We, Xtra Technology LLC, being the responsible party, declares that the above mentioned model was tested to demonstrate complying with all applicable FCC rules and regulations.

This device complies with Part 15 of the FCC Rules. Operation is subject to the following two conditions: (1) This device may not cause harmful interference, and (2) This device must accept any interference received, including interference that may cause undesired operation. Any changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

This equipment complies with FCC radiation exposure limits set forth for an uncontrolled environment. End user must follow the specific operating instructions for satisfying RF exposure compliance. This transmitter must not be co-located or operating in conjunction with any other antenna or transmitter.

The portable device is designed to meet the requirements for exposure to radio waves established by the Federal Communications Commission (USA). These requirements set a SAR limit of 1.6 W/kg averaged over one gram of tissue. The highest SAR value reported under this standard during product certification for use when properly worn on the head & body. These requirements set a SAR limit of 4 W/kg averaged over ten gram of tissue. The highest SAR value reported under this standard during product certification for use when properly worn on the limbs.
