## selfie stick Instructions for use

Compatible

☒ ios ☒ Android

### Tripod mode

When switching the selfie stick to tripod mode, be sure to extend the final section of the pole and adjust it until the tripod is stable.

### How to Use

- 1. Power On:** Press and hold the shutter button for 3 seconds to turn on.
- 2. Bluetooth Pairing:** The indicator light flashes rapidly for 4 seconds to enter pairing mode. During pairing, the blue indicator light flashes. Use your phone to search for "Selfie" to connect. Once paired successfully, the blue indicator light turns off.
- 3. Taking Photos:** When the selfie stick is connected to your phone, press the shutter button briefly. The blue light flashes.
- 4. No Pairing:** After powering on, the device will automatically shut down after 5 minutes of inactivity when no pairing connection exists.
- 5. Pairing Mode:** After powering on, the device enters sleep mode after 10 minutes of inactivity while connected to a phone. It will automatically shut down after an additional 10 minutes of inactivity in sleep mode.
- 6. Power Off:** In either powered-on or sleep mode, press and hold the shutter button for 3 seconds to power off. The indicator light will flash and then turn off.

### FCC Warning

This device complies with Part 15 of the FCC Rules. Operation is subject to the following two conditions:  
 (1) This device may not cause harmful interference, and  
 (2) this device must accept any interference received, including interference that may cause undesired operation.

**NOTE 1:** This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

**NOTE 2:** Any changes or modifications to this unit not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

The device has been evaluated to meet general RF exposure requirement. The device can be used in portable exposure condition without restriction.

### IC Warning

"This device complies with Industry Canada's license-exempt RSSs. Operation is subject to the following two conditions:

- (1) This device may not cause interference; and
- (2) This device must accept any interference, including interference that may cause undesired operation of the device."

« Le présent appareil est conforme aux CNR d'Industrie Canada applicables aux appareils radio exempts de licence. L'exploitation est autorisée aux deux conditions suivantes : (1) l'appareil ne doit pas produire de brouillage, et (2) l'utilisateur de l'appareil doit accepter tout brouillage radioélectrique subi, même si le brouillage est susceptible d'en compromettre le fonctionnement. »

The device has been evaluated to meet general RF exposure requirement. The device can be used in portable exposure condition without restriction.

L' appareil a été évalué pour répondre aux exigences générales en matière d' exposition aux RF. L' appareil peut être utilisé en condition d' exposition portable sans restriction.
