Magnetic Bluetooth Speaker

Operation Details

► Turning On

Press and hold the bottom button for 3 seconds to turn on the speaker. You'll hear a startup sound.

► Turning Off

- Press and hold the bottom button for 3 seconds to turn off the speaker. You'll hear a shutdown sound.
- If the speaker is on for over 5 minutes without use, it will automatically turn off.

► Bluetooth Pairing

- When you turn on the speaker for the first time, the blue LED will flash, indicating pairing mode.
- Enable Bluetooth on your phone, tablet, or computer. Find the speaker's Bluetooth name in the list of available devices and tap to pair.
- When connected, you'll hear a "Connected" prompt and the blue LED will stay on.

► Auto-Reconnect on Power-On

- Press and hold the bottom button for 3 seconds to turn on the speaker.
- After the initial successful pairing, the speaker will auto-

- matically connect to the paired device when turned on again.
- A connection sound will play when pairing is successful.

► Stereo Pairing

- After turning on both speakers, double-tap the power button on either speaker to enter stereo pairing mode. Once paired successfully, you'll hear a prompt. Now, connecting your phone's Bluetooth will put the speakers in stereo playback mode.
- To disconnect the stereo pair and switch back to single-speaker mode, double-tap the power button on either speaker.

► Play/Pause Music

- Tap the bottom button.
- If music is playing, tapping the bottom button will pause it. If music is paused, tapping the bottom button will resume playback.

► LED Ambient Light On/Off

- The LED ambient light turns on automatically when the speaker is powered on.
- Triple-tap the bottom button to turn off the LED ambient light.
- Triple-tap again to turn it back on.

► Charging

- Plug in a 5V charger.
- While charging, the red LED will flash. You can still turn on the speaker during this time.

► Fully Charged

When the battery is fully charged, the red LED will stay on.

► Low Power Alert

- Happens when the speaker is on.
 - If the speaker is on and the battery is low, it will beep and the red light at the bottom will blink 3 times.
- If the battery is too low to turn on, holding the button won't work. The red light will blink 3 times and then it will shut down.

Product Specifications

Product Specifications	
Input	5.0V=1.0A
Battery	600mAh
Charging Time	≤2 hours
Playback Time	about 2 hours(100%Volume)
Frequency	20Hz ~ 20kHz
Speaker	Φ40mm/5W
Output Power	5W
Bluetooth Version	V5.4
Range	≤10m / TWS > 5m
Material	Aluminum Alloy
Dimension	Φ59*H41mm
Weight	137g

FCC WARNING

This device complies with part 15 of the FCC Rules. Operation is subject to the following two conditions: (1) This device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

Note: This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following

measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

Note: The Grantee is not responsible for any changes or modifications not expressly approved by the party responsible for compliance. Such modifications could void the user's authority to operate the equipment.

- The device has been evaluated to meet general RF exposure requirement.
- This equipment complies with FCC's RF radiation exposure limits set forth for an uncontrolled environment.
- This device and its antenna(s) must not be co-located or conjunction with any other antenna or transmitter.
