

G-T3302

Multiple Function RGB Light Wireless Speaker

Component:	Specification:
Wireless Speaker*1	Wireless transmission rang: up to 10meter
Charging Cable*1	Speaker drive size: 3inch*2
	Output power: 8W*2
	Frequencyresponse: 100HZ-20KHZ
	Signal to noise ratio: ≥85dB
	FM scan rang: 87.5-108.0MHZ
	USB charging: TYPE-C
	Product size: 16*15.2*29.2 CM

the power delivered by the charger must be between min [2.5] Watts required by the radio equipment, and max [10] Watts in order to achieve the maximum charging speed.

Key Manual

Kind Reminder

1. When the machine has not been used for more than 3 months, the machine needs to be charged before use;
2. When not in use for a long time, it is recommended to charge the machine once every 3 months, which can more effectively protect the battery;
3. It is recommended to use the machine after it is fully charged.

Safety Instructions

1. Keep the product away from extremely hot and cold environments, it will damage the battery and circuit.
2. Avoid liquid immersion into the product.
3. Do not disassemble the product.
4. Do not use concentrated chemical products or detergents to clean the product.
5. Use only 5V/3A power supply. Connecting the power supply voltage too high may cause serious damage.
6. Do not randomly discard or place the product near fire or high temperature to avoid the danger of explosion.

FCC statement

This device complies with part 15 of the FCC Rules. Operation is subject to the following two conditions: (1) this device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

Any changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

NOTE: This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to Part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
 - Increase the separation between the equipment and receiver.
 - Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
 - Consult the dealer or an experienced radio/TV technician for help.
- The device has been evaluated to meet general RF exposure requirement. The device can be used in portable exposure condition without restriction.
