

Operation instruction

1. Power supply voltage: 12V, battery model: 23A 12V
2. Remote control distance: In open areas, the line of sight is 30 meters
3. Device Pairing: Press and hold the switch on the socket for 3 seconds. The indicator light on the socket will flash slowly, entering the pairing mode. At this time, briefly press any key on the remote control to pair. When the indicator light on the socket changes from slow flashing to fast flashing, it indicates that the pairing is successful
4. Function description of Remote Control buttons:
 1. ON :Energize;
 2. OFF:Outage;
 3. 2H :At dusk, the socket is powered on and the power is cut off at a fixed time after 2 hours;
 4. 4H :At dusk, the socket is powered on and the power is cut off at a fixed time after 4 hours;
 5. 6H :At dusk, the socket is powered on and the power is cut off at a fixed time after 6 hours;
 6. 8H :At dusk, the socket is powered on and the power is cut off at a fixed time after 8 hours;
 7. DUSK/DAWN:Power on at dusk and power off at dawn mode.

Class B device:

NOTE: This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

Warning: Changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

Statement according to FCC part 15.19:

This device complies with part 15 of the FCC Rules. Operation is subject to the following two conditions:

(1) This device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

Statement according to FCC part 15.21:

Changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

This device contains licence-exempt transmitter(s)/receiver(s) that comply with Innovation, Science and Economic Development Canada's licence-exempt RSS(s). Operation is subject to the following two conditions:

- (1) This device may not cause interference.
- (2) This device must accept any interference, including interference that may cause undesired operation of the device

L'émetteur/récepteur exempt de licence contenu dans le présent appareil est conforme aux CNR d'Innovation, Sciences et Développement économique Canada applicables aux appareils radio exempts de licence. L'exploitation est autorisée aux deux conditions suivantes :

1. L'appareil ne doit pas produire de brouillage;
2. L'appareil doit accepter tout brouillage radioélectrique subi, même si le brouillage est susceptible d'en compromettre le fonctionnement.

RF Exposure Statement

The device has been evaluated to meet general RF exposure requirement. The device can be used in portable exposure condition without restriction.
