

WITH BUILT IN TRACKER

INSIDE THE BOX

(1) Magnetic Wallet
(1) Manual

OVERVIEW INTRODUCTION

The iPhone Magnetic Card Holder with Built-in Tracker is a premium mobile accessory designed to redefine the daily carry by combining secure card storage with advanced tracking technology. Crafted from premium vegan leather and is specifically engineered to hold up to three cards. It is MagSafe compatible, allowing it to snap securely onto the back of an iPhone 12 or newer model. Beyond simple storage, the holder serves as a versatile stand that remains stable at various viewing angles.

CHARGING YOUR IHOME DUO WALLET

The iHome Duo Wallet arrives with a partial charge. Before first use, align the circular graphic on the card with any Qi or MagSafe charger for at least two hours, or until the LED indicator turns green. Once charged, follow the "Getting Started" steps below.

Note: The card may sit slightly off-center on some chargers; this is normal.

LED Status Guide Find the LED indicator in the bottom corner of your wallet:

- Solid Red: Charging
- Solid Green: Fully Charged
- Flashing Blue: Pairing Mode

HOW TO PAIR FOR APPLE USERS (FIND MY)

- 1 • **Open App:** Launch the Find My app on your iPhone.
- 2 • **Add Item:** Navigate to the "Items" tab and tap the "+" icon, then select "Add Item".
- 3 • **Select "Other Items"** to begin searching for your iHome Duo Wallet. Ensure that wallet is in pairing mode.
- 4 • **Select "iHome Duo Wallet"** and connect. Once connected, follow the on-screen prompts to link the tag to your Apple ID.
- 5 • **Complete the setup** to view your Tag's location on the map.

Note • The wallet can only be paired with one system (iOS or Android) at the same time. If the wallet has already been paired with a Android device , you need to first remove it from "Find Hub" app and reset the wallet to enter pairing mode before connecting it to an Apple device.

HOW TO PAIR FOR ANDROID™ USERS (FIND HUB)

FAST PAIR™ INSTRUCTION

- 1 • Requires Find Hub app (download on Google Play) and Android 9+ , Make sure your phone 's Bluetooth and network connection are turned on.
- 2 • Bring the item close to your Android device and wait for the pop-up. If none appears, restart your phone. Tap " Connect "
- 3 • Agreements:Review the "Use responsibly" notice and select "Agree and Continue".
- 4 • Select "Open app" to view your device dashboard.
- 5 • Your Wallet is now linked and ready for locating.

Note • The Wallet can only be paired with one system (Android or iOS) at the same time. If the wallet has already been paired with a Apple device , you need to first remove it from "Find Hub" app and reset the wallet to enter pairing mode before connecting it to an Android device.

BLE BASIC PERFORMANCE

Chip: omnicore OM6626
Transmitter Frequency Range: 2.400 - 2.4835 Ghz
Receiver Frequency Range: 2.400 - 2.4835Ghz
Transmit Power: 4 dBm
Receive Sensitivity: -93dBm
Connection Distance: Indoor : 10-20, Outdoor : 20-50M
Battery: Polymer lithium 3V
Battery Capacity: 110mAh

MEDICAL DEVICE INTERFERENCE

The iHome Duo Magnet Wallet contains components and radios that emit electromagnetic fields, as well as magnets. These elements may potentially interfere with pacemakers, defibrillators, or other medical devices. To ensure safety, maintain a safe distance between your medical device and the iHome Smart Tag. We strongly advise consulting your physician and the manufacturer of your medical device for information that is specific to your situation. If you suspect that the iHome Smart Tag is interfering with your pacemaker defibrillator or any other medical device, discontinue its use immediately.

IMPORTANT MATTER

The iHome Duo Wallet contains delicate electronic parts, including a battery to avoid damage, loss of function, or potential harm, please refrain from dropping, hitting, puncturing, crushing, disassembling, exposing it to extreme heat or liquids, or placing it in areas with a high concentration of industrial chemicals.

IMPORTANT HANDLING GUIDELINES

It's normal for the iHome Smart Tag to show discoloration with regular use. To clean it, use a soft, dry, lint-free cloth. Avoid applying pressure with sharp objects on the rubber seal or the battery terminal contacts inside the device.

Do not allow moisture to enter any openings or use aerosol sprays, solvents or abrasive materials to clean the device.

- Remove and immediately recycle or dispose of used batteries according to local regulations and keep away from children.
- Do NOT dispose of batteries in household trash or incinerate.
- Even used batteries may cause severe injury or death.
- Call a local poison control center for treatment information.
- Non-rechargeable batteries are not to be recharged.
- Do not force discharge, recharge, disassemble, heat above the manufacturer's specified temperature rating, or incinerate.
- Remove and immediately recycle or dispose of batteries from equipment not used for an extended period according to local regulations.
- Always completely secure the battery compartment. If the battery compartment does not close securely, stop using the product, remove the batteries, and keep them away from children

FCC ID: 2BQNL-2IHPA1015
This device complies with part 15 of the FCC Rules. Operation is subject to the following two conditions: (1) This device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

Any changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

For Class B digital devices, this equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to Part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses, and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur when a particular installation is made.

If this equipment does cause harmful interference to radio or television reception, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

It has been determined that this equipment does not use any of the following: portable equipment condition without restriction.

California Proposition 65 Warning:
