

User Instructions

- Assembly: Align the arrow icon at the bottom of the monitoring device with the arrow icon on the circular mount of the collar/harness. Insert the device into the base and rotate clockwise until you hear a "click," indicating successful assembly.

- Wearing: After confirming that the monitoring device is powered on, place the assembled collar/harness around the pet's neck/chest. The recommended tightness of the collar is such that the device does not slide after wearing.

- Recommended Device Placement: Collar: 1.Around the carotid artery area below the pet's ears, 2.Upper part of the neck. Harness: Slightly to the left on the pet's back Wearing the device in the suggested positions can effectively prevent discomfort caused by the device being pressed by the pet and minimize interference with the pet's activities.

Specifications

— APP System Requirements:
Supports iOS 15 and above (requires iPhone 10 or newer models) and Android 12 and above versions.

— Ingress Protection Grade 54
Dust Resistance Level 5: Can block foreign objects but does not provide complete protection against dust. It requires a sufficient quantity of dust to potentially affect the normal operation of the device.
Water Resistance Level 4: Can block splashes of water, providing splash resistance.

Specification	
Product Name	amicoipet Smart Collar
Brand	amicoipet
Model Number	smart collar GVIs
Bluetooth Version	4.0
Device Size	6.4 x 4.5 x 2.2 cm (L x W x H)
Collar Size/Weight (±5g)	S : 40cm/70g M : 52cm/130g L : 63cm/135g Harness-XXS : 38cm/75g
Product Weight (±5g)	Device & Collar 110g -175 g (Based on different collar size) Device + XXS Harness 115g Device 40g (excluding collar)
Ingress Protection	IP54
Battery Performance	24 HR
Charging Time	4 HR
Charging Cable	Type C
Battery Capacity	600mAh
Power Consumption	0.5W
Input Current	<0.5A
Input Voltage	5V

Troubleshooting Abnormal Situations

— Device Unable to Connect

- (1) Please first ensure that the device has sufficient power.
(The initial charging is recommended for 24 hours, and subsequently, each charging session should take approximately 4 hours.)
- (2) Make sure that the phone's Bluetooth is turned on and that there is an active internet connection.
- (3) Please close and restart the app, restart the device, and then attempt to reconnect.

Other potential factors:
Each device can only be connected to one phone at a time. If there are other phones nearby that have previously connected to the device, they may connect to the device, affecting the current phone's connection.

— Unable to Power On

Please recharge for at least 4 hours and then attempt to power on. If the issue persists, please contact customer service for assistance.

Return, Exchange, and Warranty Information:

— Return and Exchange Policy:

The 7-day appreciation period starts from the "product purchase date." Please note that this 7-day period is considered a "consideration period" and not a "trial period." Once the product (including gifts) is unsealed, it is considered accepted by you. Due to hygiene and safety considerations, we cannot accept returns once the product is unsealed. If a return is processed, the product must be in its original and new packaging, with all accessories and gifts intact. Please do not omit any accessories or damage the outer packaging. If there are signs of use, odors, or improper packaging leading to damage, the purchaser may be responsible for associated refurbishment costs.

— amicoipet Smart Collar provides a one-year warranty starting from the purchase date, with the invoice date as the reference point. If any malfunctions occur within the warranty period, please contact customer service for further assistance.

— Warranty Coverage:

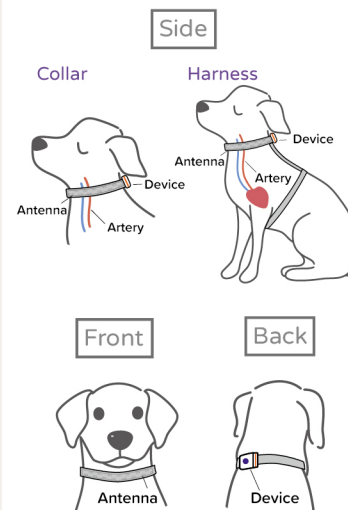

Within the one-year warranty period, the warranty covers functional malfunctions of the monitoring device and collar itself. However, malfunctions caused by external impact, deformation, damage, water immersion, or self-disassembly are not covered under the warranty.

Battery Safety

- ① This product is equipped with a non-removable or replaceable built-in battery. Please do not attempt to disassemble or modify the battery yourself.
- ② Keep away from heat sources, direct sunlight, and flammable gases. Store in a cool, dry place, and avoid prolonged immersion in water.
- ③ If the product gets wet or suffers other damage, do not use it to prevent the risk of explosion or personal injury.
- ④ This product is suitable for use in an ambient temperature range of 0°C to 45°C. Do not use it under extreme temperature conditions, as it may lead to battery overheating or abnormal power issues.
- ⑤ Keep the area around the device dry and free from liquids or foreign objects to avoid potential short circuits or malfunctions caused by liquids or foreign objects.
- ⑥ Do not dispose of used batteries with unclassified waste. Please follow local regulations for recycling used batteries or electronic devices.

Caution for Low Power RF Equipment with Certification

NCC no. CCAJ23LP51D0T1
Unauthorized changes to the frequency, increased power, or modification of the original design characteristics and functions are prohibited without approval. Users, companies, or businesses must adhere to the approved specifications. The use of low-power RF equipment should not impact aviation safety or interfere with legal communications. If interference is detected, it should be immediately discontinued and resolved before resuming use. Legal communication refers to wireless radio communication conducted by the Telecommunications Management Act. Low-power RF equipment must tolerate interference from legal communication or industrial, scientific, and medical radiofrequency radiation-emitting equipment.

Federal Communication Commission Interference Statement

This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to Part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation.

This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one of the following measures:

- . Reorient or relocate the receiving antenna.
- . Increase the separation between the equipment and receiver.
- . Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- . Consult the dealer or an experienced radio/TV technician for help.

FCC Caution: To assure continued compliance, any changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate this equipment. (Example - use only shielded interface cables when connecting to computer or peripheral devices).

FCC Radiation Exposure Statement

This equipment complies with FCC RF radiation exposure limits set forth for an uncontrolled environment. This equipment should be installed and operated with a minimum distance of 0.5 centimeters between the radiator and your body.

This transmitter must not be co-located or operating in conjunction with any other antenna or transmitter.

The antennas used for this transmitter must be installed to provide a separation distance of at least 0.5 cm from all persons and must not be co-located or operating in conjunction with any other antenna or transmitter.
