

Professional Installation Declaration

Concerning §15.203 'Antenna requirement', Subchapter A of FCC rules (Title 47, Chapter I), we hereby declare that the equipment Quasar 5, model QSR5-E (FCC ID: 2BQTZ-QSR5-EXT) is exempt from the requirement to have unique coupling/interfaces or an antenna that is integrated on the following grounds:

- This equipment is not sold to general public, be it through any retail chain, mail order or by any other method. The equipment is sold exclusively to chosen distributors who work directly with corporate clients.
- Only suitably qualified and trained personnel should undertake the installation of the product. This is essential for the product which is to be used in radio links where a professional and detailed radio survey is needed to ensure that the system will operate as required.
- Quasar 5, model QSR5-E is not intended for use by the general public; it is for industrial/commercial use; a typical example would be to provide inter-site linking of company computer networks by Point-to-Point radio.

Installing party may choose an antenna which possesses characteristics described in a separate document filed to the TCB.
