Settings

Pairing

- a. Open the lid, earbuds stay in the smart charging case
- b. Turn on Bluetooth on your phone, find “OSO” from the Bluetooth device list, and tap it to establish a connection.
- c. If OSO cannot be found from the list, it may connect to your other devices. You can try “RESET” it to get OSO ready for pairing.

****Pair your OSO via Bluetooth first before connect it via the APP**

Reset

- Place both earbuds into the Smart Charging Case (SCC). Press and hold the button on the back of the SCC to bring up the system menu. Select “Factory Reset” to reset your earbuds and charging case.

Charging

Use the included USB-C cable to charge the case. To charge the earbuds, simply place them inside the case, close the lid, and connect your OSO to a USB power source.

Real-time Recording Transcription

Open the lid and take out the earbuds to begin.

Launch the OSO App and wait for the earbuds to connect.

Tap the record button at the bottom center of the app.

Select a recording scenario:

Call or Online Meeting

Media Streaming

In-Person

AI Assistant Online Meeting

AI Chat

For iPhone Users

There are two ways to chat and retrieve information from past meetings or recordings:

- In the app settings, select **"Add Siri Shortcut"** to make **Chloe** your voice assistant. Then, just long-press the earbud to talk to Chloe.
- Use **Laxis Chat** directly within the **OSO App**.

For Android Users

- Access past meetings and recordings using **Laxis Chat directly** within the **OSO App**.

FCC Statement

Changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to Part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help

This device complies with part 15 of the FCC rules. Operation is subject to the following two conditions (1) this device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

FCC RF Exposure Warning Statement:

This equipment complies with FCC radiation exposure limits set forth for an uncontrolled environment. This equipment can be used in portable exposure conditions.
