Solder Board-Component View 4	 A photograph of a blue printed circuit board (PCB) with various electronic components, including integrated circuits, capacitors, and connectors. The board is positioned next to a black ruler with white markings in millimeters. The ruler shows measurements from 0 to 100 mm on the top edge and 0 to 200 mm on the left edge. The board is oriented vertically, with the top edge towards the right.
Solder Board-Component View 5	 A photograph of the same blue PCB from a different angle, showing the underside. It features large gold-colored pads, various components, and a prominent chip labeled 'Qualcomm'. The board is placed next to a black ruler with white markings. The ruler shows measurements from 0 to 100 mm on the top edge and 0 to 200 mm on the left edge. The board is oriented vertically, with the top edge towards the right.

Solder Board-Component View 6	 A photograph of a blue printed circuit board (PCB) component, labeled 'Solder Board-Component View 6'. The component is positioned horizontally against a blue background. A black ruler with white markings is placed below the component, showing measurements in millimeters. The component features several gold-colored pads and solder joints. The text 'Solder Board-Component View 6' is printed on the component.
Solder Board-Component View 7	 A photograph of the same blue printed circuit board (PCB) component, labeled 'Solder Board-Component View 7'. The component is positioned horizontally against a blue background. A black ruler with white markings is placed below the component, showing measurements in millimeters. The component features several gold-colored pads and solder joints. The text 'Solder Board-Component View 7' is printed on the component.
