

4. Technical Parameters

Colour	Black
Installation	Desktop
Check-in function	Push-button sign-in, touch-screen sign-in
Display	4 inch
Directivity	Unidirectional Supercardioid
Frequency Response	60Hz~18KHz
Microphone Input Impedance	1K Ω
Sensitivity	-43dBv/Pa
Maximum SPL	100dB(THD>3%)
Signal-to-noise ratio	>80dB(A)
Crosstalk	>70dB
Dynamic Range	>80dB
THD	<0.1%
Maximum Power Consumption	1.5W
Power supply	18650 Li-ion battery power supply
Rechargeable	Through TYPE-C interface
Dimensions (LxWxH)	143*110*60.5mm
Wireless Frequency Range	5.15GHz~5.85GHz
Battery Capacity	5200mAh
Weight (LxWxH)	0.9kg
Speaking time	8 hours
Microphone Length	450mm

USER MANUAL

5G WIFI Wireless Conference Discussion Unit

Dear user:

Thank you very much for purchasing our product! Please be sure to read this manual carefully before use. To operate in strict accordance with the instructions in this manual, so that you can better use this product.

After reading, please keep it properly for future inquiries.

1. Interface introduction

- ① Indicator light: Green light on-- speaking status, off --close speaking; Red light on--the speaking application mode of the delegate discussion unit.
- ② Gooseneck microphone: Pick up the voice.
- ③ Display: 4-inch display, built-in control menu, which supports touch settings, allows you to control the functions of the conference unit.
- ④ Microphone switch: press this button to open the microphone, press again to close the microphone.
- ⑤ USB port(reserved port, currently useless)
- ⑥ Power switch.
- ⑦ Type-C connector.
- ⑧ Headphone jack.

Note: C is the chairman unit, D is the delegate unit.

2. List of accessories

- ① 1pc Charging cable
- ② 1 set User Manual
- ③ 1pc warranty card and certificate of conformity

3. Features

- 1. With 4-inch display for conference process information, which can be displayed: speaking mode, speaking time, speaker information, tea service, etc..
- 2. Wireless removable desktop is more neat and tidy.
- 3. Ø3.5mm stereo headphone jack can be connected to headphones, and the volume can be adjusted.
- 4. Electret cardioid directional microphone with two-colour on indicator ring.
- 5. 128-bit AES encryption technology, support WPA/WPA2 wireless security technology, prevent eavesdropping and unauthorised access, provide higher confidentiality of the conference system.
- 6. Type-C interface, can charge the device, while the programme upgrade function.
- 7. The chairman unit has the priority function, which can shut down the delegate unit that is speaking.
- 8. Intelligent fault detection function, prompting the user AP failure, host communication failure, signal strength is too low and so on.
- 9. All-digital audio technology, built-in high-performance CPU, faster processing speed, better sound quality.
- 10. Support 48kHz audio sampling frequency, frequency response up to 60Hz ~ 18kHz.
- 11. All-digital audio transmission technology is used between conference units and between conference units and the host computer.
- 12. With key sign-in function.
- 13. The conference unit has a unique serial number, the conference system can automatically or manually assign ID to the conference unit.
- 14. With the camera, video switcher, using the computer preset, the camera can be automatically tracked.

FCC Statement

This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/ TV technician for help.

This device complies with part 15 of the FCC Rules. Operation is subject to the following two conditions: (1) This device may not cause harmful interference, and

(2) this device must accept any interference received, including interference that may cause undesired operation.

Caution

Any changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

FCC Radiation Exposure Statement

This equipment must be installed and operated in accordance with provided instructions and the antenna(s) used for this transmitter must be installed to provide a separation distance of at least 20 cm from all persons and must not be co-located or operating in conjunction with any other antenna or transmitter. End-users and installers must be provide with antenna installation instructions and transmitter operating conditions for satisfying RF exposure
