5000mAh Magnetic Battery Bank

5W Wireless Charger + Designed to work with
all wireless charging compatible iPhones®

User Guide

Date Code: 09/25

Thank you for purchasing the Atomi 5000mAh Magnetic Battery Bank

The battery bank magnetically attaches to the back of your smartphone to transmit a powerful coil-to-coil 5W wireless charge. It provides nearly an entire full charge with 5000mAh cell capacity for iPhone® 8 and above models with the included magnetic sticker. The built-in 360° rotatable finger ring holds your iPhone® in place while charging or talking for extra carrying convenience. The sleek black design is the perfect compliment for iPhones® of all colors.

Note:

Wirelessly charge your iPhone® 8 and later with the included magnetic sticker.

What's Inside

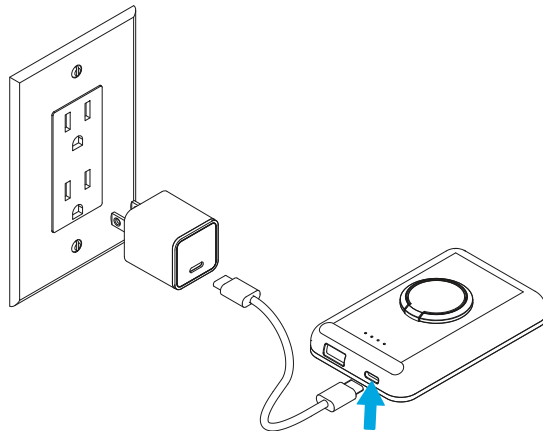

5000mAh Magnetic Battery Bank
USB-C to USB-A Cable
(2) Magnetic Stickers

Specifications

Battery Capacity: 5000mAh 3.7V 18.5Wh
USB-C Input: 5VDC, 2A max.
USB Output: 5VDC, 2.1A
Wireless Output: 5W

Charging your 5000mAh Magnetic Battery Bank

Connect the included USB-C cable to your 5000mAh Magnetic Battery Bank. Then connect it to any charger.

Wall charger not included.

Attaching the Magnetic Sticker

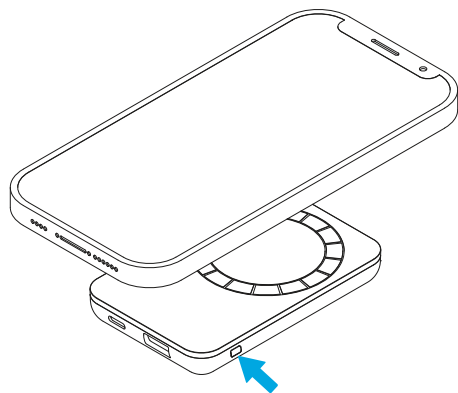

For older iPhone® models that do not have magnetic charging, please follow the instructions in the Magnetic Sticker Installation Guide.

Magnetic Charging

Place your iPhone® near the magnetic area on the Battery Bank.

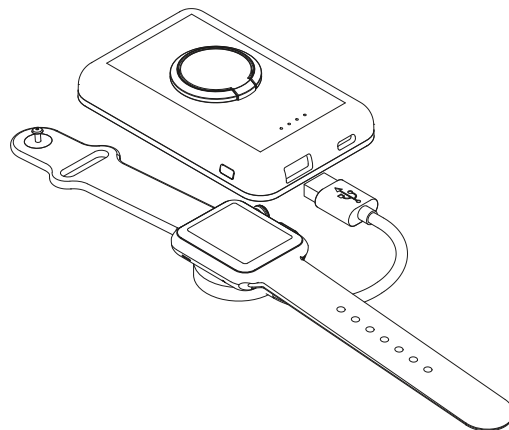

It will attract and attach to your phone.

Press POWER to start charging.

Charging Using a Cable

Connect your device to the USB-A port on the Battery Bank using a charging cable (not included).

FCC statement:

This device complies with Part 15 of the FCC rules. Operation is subject to the following two conditions: 1) this device may not cause harmful interference, and 2) this device must accept any interference received, including interference that may cause undesired operation.

Note: This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation.

This equipment generates uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

--Reorient or relocate the receiving antenna.

--Increase the separation between the equipment and receiver.

--Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.

--Consult the dealer or an experienced radio/TV technician for help.

Changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

Radiation Exposure Statement

The device has been evaluated to meet general RF exposure requirement. The

device can be used in portable exposure condition without restriction.

Safety Information

1. Read these instructions carefully for best use.
2. DO NOT use the 5000mAh Magnetic Battery Bank near water or expose it to rain or moisture.
3. DO NOT use the 5000mAh Magnetic Battery Bank near open flames, such as candles, heat sources, radiators and stoves.
4. Only clean the 5000mAh Magnetic Battery Bank with a dry cloth.
5. Caution: Risk of electric shock. Grounding continuity must be maintained.
6. For connection to a power supply not in the U.S.A., use an attachment plug adapter of the proper configuration for the power outlet, if needed.
7. Please check prior use, if output voltage and current of the power supply is suitable for the product.
8. Children should be supervised to ensure that they do not play with the appliance.
