

ZZFG[®] Touch Mouse ZM160

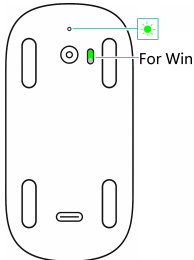

User Manual

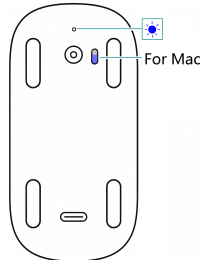

How-to Guide - 1

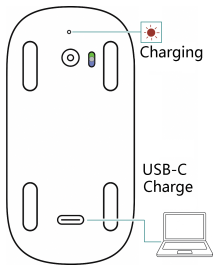

Power off:
Slide the switch to
the middle position

Win Mode:
Slide the switch to
the bottom position

Mac Mode:
Slide the switch to
the top position

Charging: Connect USB-C cable to mouse and computer.
Red light on -> charging,
Red light off -> fully charged.

How-to Guide - 2

For mouse pairing and reconnection:

Step 1:

At the bottom of the mouse, flip the toggle switch from the middle up (Mac/blue light) or down (Win/green light), the LED flashes to indicate that the mouse has entered pairing mode. If you press the button at this point, it will be reconnected to the last computer you paired with. If you don't press the key, you will always be in pairing mode waiting for the computer to pair.

Step 2:

In Win, in the Start menu, select **Settings > Devices > Bluetooth & other devices > Add Bluetooth or other devices > Bluetooth**, then select 'ZM160-Win' from the device list to complete pairing.

In Mac systems, open System Settings > Bluetooth, then select 'ZM160-Mac' from the device list to complete pairing.

Mac Gesture Instructions - 1

Click: Press the top half of the mouse surface to click or double-click

Secondary click (right-click): Press the right side of the mouse to perform a "secondary click"

360° Roll: Sweep over a surface with one finger to roll or move in any direction

Mac Gesture Instructions - 2

Smart Zoom: Double-tap with one finger to enlarge a webpage or PDF, or shrink back to its original size

Mission Control: Double-tap with two fingers to open Mission Control.

Swipe with two fingers: Swipe left or right to move through items like pages, photos, and more

Windows gesture description

Click: Press the top half of the mouse surface to click or double-click

Secondary click (right-click): Press the right side of the mouse to perform a "secondary click"

360° Roll: Sweep over a surface with one finger to roll or move in any direction

FCC Statement

This device complies with part 15 of the FCC Rules. Operation is subject to the following two conditions: (1) this device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

Any changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

NOTE: This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to Part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation.

If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
 - Increase the separation between the equipment and receiver.
 - Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
 - Consult the dealer or an experienced radio/TV technician for help.
- The device has been evaluated to meet general RF exposure requirement. The device
