

折后84*140

The peak output current is 4 amperes and maximum constant current is 2 amperes per channel. Please reduce load if main unit is overheating.
CAUTION! Do not short circuit or overload the LED outputs, this may lead to permanent damage!

Operation

1. Using Remote Controller

Please pull out the battery insulate tape before using. The RF wireless remote signal can pass through barrier, so it's not necessary to aim at the main unit when operate.

2). Press 'ON/OFF' and 'MODE+' key together in 5 seconds after power on.

After this operation, the main unit will recognize any remote controller. To pair the main unit back to specific remote, please repeat the 'Pairing New Remote' operation.

4. Switch Output Color Sequence

The controller's default output signal sequence is Common-Green, Red-Blue. If the LED application is in different cable sequence, the direct color keys will not match the LED color. In this case, user can adjust the output signal sequence with following steps:

1). Plug off the power of main unit and plug in after 5 seconds.
2). Press 'RED' and 'BLUE' color key together in 5 seconds after power on.
With this operation, the output sequence will switch between 6 possible combinations. The sequence will be memorized and it won't change before next same operation.

For proper receiving remote signal, please do not install the main unit in closed metal parts.

2. Pairing New Remote

The remote and main unit is 1 to 1 paired as default. Further more, main unit can be paired to 3 remote controllers and each remote controller can be paired to any main unit. Please do following steps to pair new remote controller:

1). Plug off the power of main unit and plug in after 5 seconds.
2). Press 'On/off' and 'BRIGHT+' key together in 5 seconds after power on.

After this operation, the main unit will recognize the new remote controller.

3. Free Remote Pairing Mode

In some specific cases, the main unit may need to be paired to any remote controllers. Please do following steps for free remote pairing mode:

1). Plug off the power of main unit and plug in after 5 seconds.

Specification

Dynamic mode	22 modes
Static Color	20 colors
PWM Grade	256 levels
Brightness Grade	5 levels
Speed Grade	10 levels
Demo mode	Yes
Direct Color Select	Yes
Output Color Switchable	Yes, 6 options
Working Voltage	DC 5~24V
Output Current	36A peak, 3A constant
Remote Frequency	433.92MHz

Xuyuan Manufacturing

RF Wireless Remote Advanced

RGB LED Controller

Instructions

- 22 Dynamic Modes
- 20 Static Colors
- Very Smooth Effects
- Speed Adjustable
- Brightness Adjustable
- Card Type RF Remote
- Ultra Slim Design
- Dynamic Demo Mode
- Easy Remote Pairing
- Direct Color Select

1. Turn On/Standby

Press this key to turn on unit or switch to standby mode. At power on, unit will automatically turn on and restore to previous status.

2/9. Dynamic Mode Adjust

Switch to dynamic mode from static color, or switch between dynamic modes.

3/10. Dynamic Speed Adjust

Adjust dynamic playing speed. Press SPEED+ to increase speed and press SPEED- to decrease. Unit will switch to dynamic mode if press this key at static color mode.

4/5. Static Color Adjust

Switch to static color mode from dynamic mode, or switch between static colors.

6. Direct Color Select

Shortcut key to static colors. When press the specific color key, LED will play the same static color. The direct colors are included in 'COLOR+' and 'COLOR-' operation.

Functions

RF-17KEY-8439
ZX-5050RGB-RF-17KEY

7/8. Brightness Adjust

Adjust static color brightness. Press BRIGHT+ to increase brightness and press BRIGHT- to decrease.

11. Demo Mode

Press this key will switch to Demo mode. At demo mode, it plays 17 dynamic modes in loop, each mode repeat 3 times.

Installing

1. Power Supply

This unit accepts DC 5V to 24V power supply. The DC jack's inner pole (or red cable) is positive and sleeve (or black cable) is negative. Also please make sure the power supply voltage is same as the LED load.

2. LED Output

This unit support common anode connection LED products. The mark 'A' indicates the common connection mode.

Warning:

This device complies with Part 15 of the FCC Rules.

Operation is subject to the following two conditions:

(1) this device may not cause harmful interference, and

(2) the device must accept any interference received, including interference that may cause undesired operation.

Changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

NOTE: This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to Part 15 of the FCC Rules.

These limits are designed to provide reasonable protection against harmful interference in a residential installation.

This equipment generates uses and can radiate radio-frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee

that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined

by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

—Reorient or relocate the receiving antenna.

—Increase the separation between the equipment and receiver.

—Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.

—Consult the dealer or an experienced radio/TV technician for help.

RF Exposure Statement (5050RGB light strip)

To maintain compliance with FCC's RF Exposure guidelines, This equipment should be installed and operated with minimum distance of 20cm from the radiator your body.

This device and its accessories must not be co-located or operation in conjunction with any other antenna or transmitter(RF Exposure Statement (RF 2.4G Remote Control)

The device has been evaluated to meet general RF exposure requirement.

The device can be used in portable exposure condition without restriction.

a). Remove and immediately recycle or dispose of used batteries according to local regulations and keep away from children. Do NOT dispose of batteries in household trash or incinerate.

b). Even used batteries may cause severe injury or death.

c). Call a local poison control center for treatment information.

d). The compatible battery type (R6, LR44, CR2032), model: CR2032

e). The nominal battery voltage: 3V

f). Non-rechargeable batteries are not to be recharged.

g). Do not force discharge, recharge, disassemble, heat above or incinerate.

Doing so may result in injury due to venting, leakage or explosion resulting in chemical burns.

a). Ensure the batteries are installed correctly according to polarity (+ and -).

b). Do not mix old and new batteries, different brands or types of batteries, such as alkaline, carbon-zinc, or rechargeable batteries.

c). Remove and immediately recycle or dispose of batteries from equipment not used for an extended period of time according to local regulations.

d). Always completely secure the battery compartment. If the battery compartment does not close securely, stop using the product, remove the batteries, and keep them away from children.

WARNING

★ DO NOT IMMERSE IN FIRE

★ CHILDREN UNDER THE AGE OF 16 SHOULD USE THIS PRODUCT UNDER ADULT SUPERVISION.

If you have any question after receiving the products, please contact our customer service, we will reply to you within 24 hours.
