

⚠ WARNING

Please pay attention to the following problems, otherwise it may cause abnormal charging high charging temperature, intermittent charging, or even no charging.

- Please use a QC3.0 PD adapter (recommended with a standard adapter or a QC PD protocol adapter above 18W) for better charging effect. 5V/1A adapters are not supported.
- When charging wirelessly, there should be no metal or magnetic objects within a distance of 4 cm in diameter between the charger and the center point on the back of the phone.
- The lower the temperature, the faster the charging speed. The charging speed is faster in winter than in summer.
- Please do not charge in high temperature and humid environment to avoid circuit damage.
- Please keep it out of reach of children to avoid unnecessary accidents.

☰ WARRANTY

This product has a 1 year warranty against defects in manufacturing under regular consumer use. For instructions about how to obtain warranty service for your product, please contact Customer Service: info@primebrandsgroup.com.

Changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate this device.

This device complies with part 15 of the FCC Rules. Operation is subject to the following two conditions: (1) This device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

NOTE: This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses, and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

This equipment complies with FCC radiation exposure limits set forth for an uncontrolled environment.
This equipment should be installed and operated with minimum distance 20cm between the radiator & your body.

USER MANUAL

Welcome to the user manual for your 5-in-1 Magnetic Wireless Charging Dock. The ultimate all-in-one solution for powering your everyday essentials. Designed with convenience and functionality in mind, this sleek charging station supports 15W fast wireless charging for your smartphone, Apple Watch, and AirPods simultaneously. Beyond charging, it features a built-in LED digital alarm clock for timekeeping at a glance, and a removable RGB LED light to enhance your space with customizable ambient lighting. Whether on your nightstand or desk, this multifunctional device keeps your gear charged and your environment stylishly organized.

Includes:
Power Base Light Go, Type-C USB Cable, Removable RGB LED Light, User Manual

1. Smartphone Magnetic Wireless Charging
2. iWatch Charging
3. AirPods Charging
4. Night Light Touch Switch
5. Removable RGB LED Light
6. Clock Display
7. Type-C Input (on back of product)

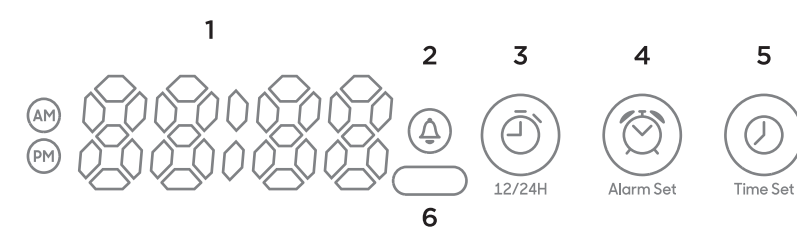

||| SPECS

Wireless Charging Input: 5V-3A, 9V-3A
Smartphone Wireless Output: 5W / 7.5W / 10W / 15W
AirPod Wireless Output: 5W
iWatch Output: 2.5W max
Night Light Parameters: 7 color RGB • Warm White
Battery Capacity: 200 mAh

🔑 KEY FUNCTIONS

1. Clock Display
2. Alarm Indicator
3. 12/24 Hour Toggle
4. Alarm Set
5. Time Set
6. Wireless Charging Indicator (Blue - Charging)

🕒 HOW TO SET CLOCK

Press and hold the time icon for 3 seconds to enter the clock setting mode. Click to set the time and press and hold again to switch the digital area. Click to set the minute to adjust the hour and minute correctly. Wait for 5 seconds or press and hold for 3 seconds to complete the time setting.

Time system operation: Long press the 12/24H icon to switch 12/24H hour modes.

🕒 HOW TO SET ALARM CLOCK

Press and hold the alarm clock icon for 3 seconds to enter the alarm setting mode. Click to set the time and press and hold again to switch the digital area. Click to set the minute. After adjusting the hours and minutes correctly, wait for 5 seconds to complete the alarm setting and then the small alarm icon lights up. (Note: Not the alarm clock icon on the right.)

Alarm cancellation operation: Press and hold the alarm clock icon 3 times in a row (press and hold for 3 seconds each time).

When in 12-hour clock mode, follow the AM/PM icon prompt to adjust the alarm time.

Alarm clock notes:

1. Short press to view the time set by the alarm clock. If no alarm clock is set, it will display "...".
2. When the alarm goes off, touch any button to turn off the alarm.
3. When the alarm sounds, if there is no operation, the alarm will automatically enter the snooze mode after the alarm for one minute and the alarm will be automatically turned off after the alarm sounds again for 1 minute after the snooze for five minutes.

🌞 NIGHT LIGHT FUNCTION

Press the button.

One press shows warm white lights. Press again to enter RGB colorful lights. Press again to switch colors.

Long press to adjust brightness under warm lighting.
