3、 product presentation

- Beautiful appearance
- Small in size
- All-weather operation
- Low standing wave, Anti-jamming

4、 Antenna technical parameters

Design Specifications	Typical
Antenna form	REMOTE CONTROL ANTENNA Rod antenna (host antenna)
Working Frequency	430-435MHz
Gain	2dBi
Antenna efficiency	40%
VSWR	≤ 2.0
Ploriaztion	Vertical
Radiation pattern	Omnidirectional
Impedance	50 Ω
Power Capacity	5W
Interface	/
Overal dimensions	5*85mm
Weight	$\leq 100g$
Operatin Temp	-40°C~70°C
Storing Temp	-45°C~80°C

Gain & Effciency & 3D Pattern

Frequency						
Frequency (MHz)	430	431	432	433	434	435
Gain (<u>dBi</u>)	1.56	1.62	1.95	2.00	1.94	1.72
<u>Effciency</u> (DB)	-8.32	-8.95	-9.35	-9.12	-8.92	-8.56

Remark:

We statement that All measurements were performed radiated and therefore additional antenna gain documentation is not required
