

HOW TO CONNECT

Step 1
Connect the power cable to your ShutEye Smart Light and plug it into a standard electrical outlet. For optimal performance, we recommend keeping the device continuously connected to power.
*For ease of reading, the product "ShutEye Smart Light & White Noise Machine" will be referred to as "ShutEye Smart Light" hereafter.

Step 2
Download the ShutEye companion app from the Apple App Store or Google Play Store onto your smartphone or tablet.

Step3
Follow the in-app instructions to pair your ShutEye Smart Light with the app.
Note: A stable Wi-Fi connection is required during setup.

Technical Parameters

Package Include

ShutEye Better sleep starts here

CONTROLS

Unwind
Activate: Press the Unwind button when you are ready to sleep.
Next step: Press the Unwind button again to advance to the next unwind step.
Interrupt: Press and hold the Unwind button for 2 seconds to exit Unwind.

Nightlight
Activate: Press the Nightlight button for ambient illumination.
Light Styles: Press repeatedly to toggle through preset lighting themes.
Customization: Manage available lighting styles via the Light Preferences menu in the ShutEye App.

Alarm & Snooze
Configure Alarms: Set up wake-up alarms and sleep reminders through the Alarm Settings section in the ShutEye App.

Snooze: Briefly press either the Unwind or Nightlight button during an active alarm to activate the snooze function.
Dismiss: Press and hold either the Unwind or Nightlight button for 2 seconds to cancel the alarm.
Enable/Disable alarms: Slide the toggle control right to deactivate alarms or left to re-enable them.

Volume
Gently tap the lower right corner to increase volume, or the lower left corner to decrease.

Brightness
Press the center area on the right side of the ShutEye Smart Light to increase brightness.
Press the center area on the left side to decrease brightness.

FCC Caution
Any changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment. This device complies with part 15 of the FCC Rules. Operation is subject to the following two conditions: (1) This device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

IMPORTANT NOTE: This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

FCC Radiation Exposure Statement: This equipment complies with FCC radiation exposure limits set forth for an uncontrolled environment. This equipment should be installed and operated with minimum distance 20cm between the radiator & your body.
