Remote Control

Installation

Matters needing attention

- Step1: Make sure to cut off the power before installation.
Step2: Assemble the 5 fan blades as picture shown
Step3: Install the whole lamp on the socket.
Step 4: After the installation is finished, turn on the power. You can use the fan light by remote control.l.

Installation precautions

Please pay attention to safe installation during suspension use and follow best practices during installation.
When installing the fan blade model, attention should be paid to the installation height of the lighting fixtures and maintain a certain safe distance from people.
When hanging and installing, be careful not to have obstacles around.

Matters needing attention

1. Please do not put fingers or other things into the working fan blades
2. For daily cleaning,you can use a damp cloth to wipe the surface without using corrosive chemicals.
3. The fan blades can also be disassembled directly, convenient for cleaning and storage.
4. In case of any accident, disconnect the power first, then ask an electrician to check and fix it.
5. The remote control requires AAA * 2 batteries, please bring your own

FCC WARNING

This device complies with part 15 of the FCC Rules. Operation is subject to the following two conditions: (1) this device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

Any changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

NOTE: This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to Part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications.

However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception,

which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

To maintain compliance with FCC ’ s RF Exposure guidelines, This equipment should be installed and operated with minimum 20cm distance between the radiator and your body: Use only the supplied antenna.
