

WIRELESS SPEAKER LED LAMP

Any Changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

NOTE: This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

Thank you for choosing our wireless speaker LED table lamp!
This user manual provides essential information to ensure you enjoy the full range of features and benefits that come with your new lamp. Please read this manual carefully before use.

SPECIFICATIONS

Device name:	Wireless Speaker Lamp
Scope of application:	10m
Speaker Output:	5W.
Speaker Frequency:	20Hz-20KHz
Charging Time:	3-4 Hours
Lighting time:	7/8 hours
Speaker working time:	3-4 hours
Battery:	18650 Lithium-ion 2000mAh rechargeable battery
Color Temperature:	3000K,4000K,6500K
Charging Input:	5V, 1A
Working Temperature:	32°F~131°F

Front

Use guideline:

1. Press the bottom button until hear "power on" and "wireless connectivity mode on"
2. Search for available wireless devices
3. Connect to the device named "Wireless Speaker Lamp"
4. When you hear "Connected", the item is ready for use.
5. Press bottom button to turn off – wait to hear "power off"

Tips: The lamp and the speaker are two separate functions, you can use them separately or together.

RF exposure warning:

This equipment must be installed and operated in accordance with provided instructions and the antenna(s) used for this transmitter must be installed to provide a separation distance of at least 20 cm from all persons and must not be co-located or operating in conjunction with any other antenna or transmitter. End-users and installers must be provide with antenna installation instructions and transmitter operating conditions for satisfying RF exposure compliance.

1. Charging the lamps:

- 1) Plug the USB-C charging cord into the lamp's charging inlet and connect the other end to a USB charging port.
- 2) The charging indicator will turn red when charging and green when the battery is fully charged.

2. Turning On/Off or Changing Color

Tap the button on top of the lamp to turn it on and cycle through the 3 color temperatures then turn it off:

- 1) 3000K - Warm White
- 2) 4000K - Natural White
- 3) 6500K - Cool White

3. Adjusting Brightness:

While the lamp is on, press & hold the button to dim or brighten the light until you reach your desired brightness level.

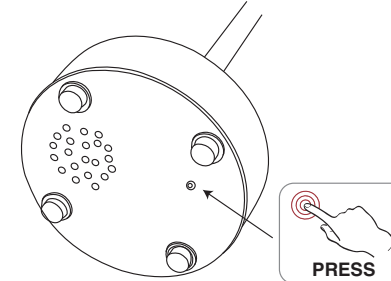

CARE AND MAINTENANCE

1. Cleaning: Use a soft, dry cloth to clean the lamp. Avoid using abrasive cleaners that may damage the surface.
2. Storage: When not in use, store the lamp in a cool, dry place.
3. Battery Maintenance: For optimal battery life, it is recommended to fully charge the lamp before first use and recharge it when the battery is low.

TROUBLESHOOTING

1. Lamp not turning on: Ensure that the lamp is fully charged. If the issue persists, check the charging cord connection and power source.
2. Dimming not working: Make sure you are pressing and holding the button while the lamp is on. If the problem continues, recharge the battery.
